Cette étude passe en revue les déterminants du taux de chômage non accélérationniste (TCNA), les raisons de ses variations possibles au fil du temps et les diverses méthodes qui ont servi à le mesurer. Les déterminants en question sont les suivants, les facteurs qui influencent la décision des gens de faire partie de la population active et d'occuper un emploi, tels que les effets de l'assurance-chômage; certains aspects de la composition de la main-d'œuvre, comme l'âge et le sexe; des facteurs particuliers ayant trait à l'offre, comme le rôle des syndicats; et, des facteurs structurels transitoires, comme les réactions aux variations importantes des prix relatifs. L'étude comprend également une synthèse des récents travaux effectués au département des Recherches sur le TCNA. Les estimations et les méthodes qu'elle expose sont comparées avec celles d'autres chercheurs.

**Teacher education in Ontario : current practice and options for the future**

by M.G. Fullan...et al. Toronto : Ministry of Colleges and Universities ; Ministry of Education, 1990. vii, 117 p. : ill. French ed. (*La Formation des enseignants...*) : 90-06081/2. ISBN 0-7729-3784-2  
MICROLOG 90-06080 2 fiche

Presents a brief history of preservice teacher education as background to a description of present teacher education in Ontario, and a preliminary analysis of the major issues of the report. It also sets out a perspective for thinking about teacher education, and discusses the importance and characteristics of schools as places of professional development. Finally it presents the Steering Committee's proposals.

**Teaching and learning biology in Kenya**

by C. Namuddu. Ottawa : International Development Research Centre, 1989. 3 v. : ill. Bibliogr. (Manuscript report ; 223e) Contents: Vol. 1 : *Educating the elite harmony and conflict* -- vol. 2 : *Teacher participation in research for professional growth* -- vol. 3 : *Backbenchers as pacesetters : a small price for individualism*. MICROLOG 90-00272 4 fiche (Available on fiche only)

This research study was part of a larger project on teaching and learning biology in Kenya which aimed to identify practices which take place in schools and classrooms, and to understand the implications of teachers' and students' perceptions for school achievement and acquisition of general positive behaviour. Volume 1 of the study looked at how heads of schools, teachers and students viewed the goals of education at school and within the broader society; and sought to understand how the educators actualized the purpose of schooling in relation to their definition of the purposes of education. Volume 2 involved discussion, interviews and reflection among 4 teachers with the general goal of getting them

to clarify perceptions of their work. Volume 3 documented one teacher's instructional techniques to determine whether or not the teacher's general beliefs, based on notions of the uniqueness of individuals, were translated into the conduct of the teaching-learning process; and if so, in what ways.

**Technical and operating manual : Toxics Deposition Monitoring Program : report**

by M.N. Shackleton. Toronto : Environment Ontario, Air Resources Branch, 1990. iv, 81 p. : ill. ISBN 0-7729-7009-2  
MICROLOG 90-06973 1 fiche

It is now well established that long range transport followed by deposition is a major pathway for the entry of toxic substances to the Great Lakes. Since 1987, polychlorinated biphenyls (PCBs), selected chlorinated pesticides, trace metals, dibenzodioxins and dibenzofurans and PAH in air samples have been monitored in the Great Lakes. Methods are also being developed for many of the non-chlorinated pesticides. This report documents the current status of instrumentation, sample handling and collection procedures, and the field data reporting and documentation requirements to monitor for all the target substances except trace metals. Development of the sampling procedures was based on guides, journal articles, reviews, internal correspondence and the experience of network operatives. The procedures are designed to include specific quality control checks

**A Technical and operational comparison of geographic information systems as applied to the Canadian forest industry**

Reid, Collins and Associates. S.I. : Forest Resource Development Agreement, 1989. iii, 68 p. : Bibliogr. (FRDA report ; 089) ISSN 0835-0752 ISBN 0-662-17179-9  
MICROLOG 90-04433 1 fiche

From December 1988-January 1989, a technical and operational comparison of Geographic Information Systems as applied to the Canadian forest industry was conducted. Of 84 surveys sent out, 46 were returned complete. Trends and directions in this technology were identified through vendor and user interviews. Results are given relating to support, spatial and nonspatial system overview, user interface, data entry/loading, data editing/manipulation, and data analysis/output. Trends and directions in computer hardware, computer operating systems/environment, artificial intelligence, remote sensing and image analysis, and management science are given.

**Technical Committee for the Long-Range Transport of Atmospheric Pollutants in Western and Northern Canada : Annual report 1987**

Edmonton : The Committee, 1988. viii, 38 p. CSI 38179.001  
MICROLOG 90-03742 1 fiche

In December 1982, the Committee, containing representatives from the federal government and the environment ministries of B.C., Alberta, Saskatchewan, Manitoba, and the Northwest Territories, launched a research program to identify current conditions in western Canada and provide the information necessary to develop management strategies. This annual report gives a history, current status and future activities of the Committee as a whole, then presents details of the programs of each of the governments in emission and control technology, air quality and deposition, surface water, soils and geology, vegetation and health. Jointly managed activities and industry and institutional activities are also detailed, along

with tables of the annual deposition of wet sulphate at sampling stations in Western Canada. A glossary is included, as well as with the priorities for coordinated research and monitoring from 1985-88.

# **Technical Committee for the Long-Range Transport of Atmospheric Pollutants in Western and Northern Canada : Annual report 1988**

Edmonton : The Committee, 1989. v, 33 p. Bibliogr. CSI 38179.001.  
MICROLOG 90-02921 1 fiche

In 1980, the deputy ministers of the provinces of B.C., Alberta, Saskatchewan and Manitoba and senior officials from Environment Canada agreed to cooperate on issues related to the long range transport of air pollutants (LRTAP). In 1982, the Government of the Northwest Territories joined the consultative committees and a 3-year program was begun to identify current conditions and to provide information for developing management strategies. A third agreement was signed in 1988. This report presents a summary of the monitoring and research activities carried out during 1988 by each provincial and the federal government. Summaries are also given of jointly managed activities and industry and institution activities. Major monitoring activities include sulphate and nitrate deposition rate in precipitation, characterization of total deposition (wet vs dry), quality of sensitive surface waters and terrestrial environments; and characterization of the role of nitrate, ammonia, and metals deposition. The validation of mathematical models to assist in management strategies is also continuing.

# **Techno-economic feasibility study for a small scale Portland cement plant in northern Canada : final report**

Hardy BBT Limited. S.I. : The Corporation, 1989. ii, 163 p. : ill. CANMET contract: 89008-01-SQ  
MICROLOG 90-05645 2 fiche

The majority of economic activities requiring the use of Portland cement are currently in Yukon and the western part of the NWT. The study therefore focused on the feasibility of a small scale Portland cement operation to satisfy the market in this area. The study defines the current uses, major users and suppliers of Portland cement and how current users' needs are met; predicts the resource needs, transportation methods and price requirements of current and potential users from 1980-2000, assesses the potential for the small scale vertical kiln technology or alternative to meet these requirements on a cost competitive basis, indicating the sources of raw materials, supply

methods and cost (capital and operating) needed for such a venture, and any drawbacks to applying this technology or alternatives; and describes the optimum conditions under which the small scale vertical kiln technology or alternatives can be applied to meet the current or predicted Portland cement requirements.

# **Technological properties of fish ensilage**

by K. Prytz and E. Stenberg. Ottawa : National Research Council, Canada Institute for Scientific and Technical Information, 1988. 53 p. : ill. Bibliogr. (Canadian translation of fisheries and aquatic sciences ; no. 5368) Originally published in Norwegian, by F.T.F.I. the Research Institute for Fisheries Research, in Norway. ISSN 0704-3716  
MICROLOG 90-01498 1 fiche

The growth of the aquaculture industry in Norway has been very strong and there is evidence this growth will continue in the future, leading to the need for a new, cheaper, and nutritionally correct source of feed for farmed fish. The dominant feeds for farmed salmon are dry pellets and frozen capelin. In the last few years, questions have been raised about the solubility of the dry feed in the intestines of fish and its high content of polysaccharides, which could damage the liver of the fish. This report describes the ensilage of industrial fish while preserving the consistency characteristics of the ensilage, so that it can be used as fish farm feed without having to add considerable amounts of polysaccharides.

**Telemetric studies of winter steelhead, Gold River, 1982-83**

by R.S. Hooton and M.G. Lirette. Victoria : Ministry of Environment and Parks, 1986. ii, 25 p. : ill. Bibliogr. (Fisheries management ; no. 86) ISSN 0705-5390 ISBN 0-7726-0485-1  
MICROLOG 90-00636 1 fiche

Vancouver Island steelhead streams are short, small and readily accessible to anglers. Winter steelhead enter these streams between November and May and often reside for several months before spawning, leading to intense angling pressure and a decline in stocks. Regulatory changes were considered necessary to reverse observed declines and a process of evaluating their efficiency was required. Gold River, the leading wild winter steelhead producer on Vancouver Island, was selected to initiate telemetric studies to examine the in-stream movement of winter steelhead in relation to timing of immigration into the river; to assess the relative vulnerability of early (December/January) vs late (March/April) immigrant winter steelhead to angling; to determine the spatial and temporal distribution of tagged steelhead spawners, to examine the post-tagging behaviour and survival of tagged winter steelhead; and to assess the efficacy of estimating winter steelhead stock sizes using the mark and recapture technique.

**Temperature-induced gametogenesis in the Yezo scallop**

by G.I. Viktorovskaya and V.V. Yevdokimov. Ottawa : National Research Council, Canada Institute for Scientific and Technical Information, 1988. 9 p. (Canadian translation of fisheries and aquatic sciences ; no. 5427) Originally published in Russian, at Moscow,

U.S.S.R. ISSN 0704-3716  
MICROLOG 90-01519 1 fiche

The reproductive cycle of the Yezo scallop is equal to one year in the Peter the Great Gulf. During this period, the growth rates of the sex cells vary significantly, mainly under the influence of the temperature. This study established the dependence of the reproductive process, and the physiological activity of the species as a whole, on the temperature of its environment when sex cells capable of maturing are present in the gonad. The experiments were carried out to obtain (sooner than under natural conditions) mature sex cells in scallops that had already spawned, and to confirm their viability. The experiments were carried out in aquariums with running water in which the temperature was controlled automatically, using 95 2-3-year-old scallops in 3 experiments lasting 21-66 days in autumn, winter and spring.

**Temporal statistics of low-angle ground clutter**

by H.C. Chan. Ottawa : Defence Research Establishment Ottawa, 1989. x, 38 p. : ill. Bibliogr. (Report ; no. 1021)  
MICROLOG 90-04045 1 fiche

Ground-based surveillance radars employ a variety of signal processors of varying degree of sophistication to combat ground clutter. One of the important performance requirements is false alarm rate regulation. In order to maximize the probability of target detection while maintaining an acceptable false alarm rate, the detection threshold setting must be determined optimally, requiring a detailed knowledge of the temporal statistics of clutter. This study analyzes experimental data to characterize the temporal statistics of low-angle ground clutter in terms of the clutter's linear amplitude distribution, as well as the effects of radar frequency, polarization, waveform resolution, land covers and wind speed on the clutter statistics.

**Tendances des effectifs de canards nichant dans l'ouest du Canada, 1955-89**

par K.M. Dickson. Ottawa : Service canadien de la faune, 1989. 10 p. : ill. Bibliogr. (Cahiers de biologie ; no 186) L'éd. anglaise (*Trends in sizes...*) : 90-03255/1. ISSN 0703-0967 ISBN 0-662-95848-9  
MICROLOG 90-06275 1 fiche

L'évolution des populations de canards est surveillée tous les ans depuis 1955 dans un habitat de nidification couvrant près de 3,6 millions de km carrés. Les résultats de ces relevés fournissent des renseignements sur l'abondance et la répartition des populations de canards ainsi que sur les modifications de l'habitat, et ils constituent une base pour la gestion de la majorité des espèces de canards. Ce document donne des renseignements sur les tendances des effectifs de canards nichant dans l'ouest du Canada entre 1955 et 1989.

**Tensile strengths of Montauban mine rocks**

by M.C. Bétournay, C. Lee and M. Little. Ottawa : Canada Centre for Mineral and Energy Technology, Mining Research Laboratories, 1987. iv, 32 p. : ill. Bibliogr. (Report ; MRL 87-189(TR))  
MICROLOG 90-02551 1 fiche

Tensile strength tests were performed on Montauban gold mine rocks (gneisses), originating from various stope hanging walls. Beam tensile tests were adopted to obtain results representative of field conditions and useable in various stability analyses. Brazilian tensile tests were also performed for scientific comparison to beam test results.

**Termes fiscaux, financiers et administratifs**

Ottawa : Bureau des traductions. Direction

générale de la terminologie et de la documentation, 1978. iv, 284 p. (Bulletin de terminologie ; 154) *Bilingue* (Administrative, financial and...). ISBN 0-660-01684-2 MICROLOG 90-04743 3 fiche

Ce document constitue la deuxième édition, revue et améliorée, du glossaire anglais-français des termes fiscaux, financiers et administratifs en usage au ministère du Revenu national, Impôt, dans les domaines suivants: fiscalité, finance (économique, commerce, bourse, etc.), administration (personnel, gestion, griefs, syndicalisme, etc.), et informatique. Il s'agit d'un instrument de travail spécialisé qui n'a pour objet que d'aider à employer la terminologie propre au Ministère. CA CO PA

### Terminologie canadienne de l'assistance au développement

Ottawa : Secrétariat d'Etat du Canada, Bureau de la traduction, Direction générale des opérations de traduction, 1990. xv, 106 p. *Bilingue* (Canadian development assistance...). ISBN 0-662-57278-5 MICROLOG 90-04741 2 fiche

En mettant fin à son isolement, la Chine a ouvert ses portes à un véritable déferlement de techniques et de produits, mais aussi de gens et d'idées. Interprètes et traducteurs se voient contraints de faire oeuvre de création pour aider au passage de nouveaux concepts dans une langue qui ne se prête guère aux emprunts directs. Ce document présente un vocabulaire anglais-français-chinois, ainsi qu'un index de la terminologie canadienne de l'assistance au développement. CA EX

### Terminologie de l'administration municipale

établie par Noella Richard ; revue et augmentée par Catherine A. Bowman, Hélène Tremblay et Lois Vincent. Ottawa : Bureau des traductions, Direction générale de la terminologie et des services linguistiques, 1981. viii, 132, viii, 134 p. (Bulletin de terminologie ; 168) *Bilingue* (Municipal administration terminology). MICROLOG 90-02986 3 fiche

Ce document présente sept vocabulaires qui portent sur l'administration publique et qui visent à faciliter la rédaction et la traduction des lois, des règlements et des autres documents. On y présente le vocabulaire, la liste des sources, la bibliographie de l'administration municipale et la liste des bulletins de terminologie. CA PA

### Terminologie de l'inventaire des forêts du Canada -- 3e éd.

par B.H. Haddon. Ottawa : Forêts Canada, Comité de l'inventaire des forêts du Canada, 1988. vi, 113, vi, 109 p. *L'éd. anglaise* (Forest inventory terms...) sur la même fiche. ISBN 0-660-54772-4 MICROLOG 90-01189 3 fiche

Cet ouvrage a pour objet de résoudre les problèmes de terminologie en fournissant une terminologie commune et en expliquant son usage. Le document porte essentiellement sur l'inventaire forestier, ainsi que sur la description des méthodes d'inventaire forestier au Canada, le glossaire et les annexes. Il décrit chronologiquement les tâches associées aux inventaires forestiers; comprend les termes communément utilisés ou associés à l'inventaire forestier; et compte trois annexes qui présentent les unités métriques dans les inventaires forestiers, les symboles approuvés pour représenter des essences individuelles ou des groupes d'essences; et finalement, décrit le Système de données sur les terres du Canada. ### Terminologie des services sociaux et des services de santé

par M. Thibault. Ottawa : Fédération canadienne des municipalités ; Bureau des traductions, 1981. viii, 136, viii, 128 p. Bibliogr. (Bulletin de terminologie ; 170) *Bilingue* (Health and social services...). ISBN 0-660-50812-5 MICROLOG 90-04843 3 fiche

Ce lexique contient des termes relatifs aux services de santé et services sociaux locaux, deux sujets d'importance primordiale au niveau municipal. Le but de cette publication est de donner les termes anglais les plus fréquemment employés avec les termes français équivalents. CA HE SA

### Terminologie des transports urbains

par C.A. Bowman et J. Carey. Ottawa : Fédération canadienne des municipalités ; Bureau des traductions, 1981. viii, 156, viii, 150 p. Bibliogr. (Bulletin de terminologie ; 169) *Bilingue* (Urban transportation terminology). ISBN 0-660-50811-7 MICROLOG 90-04859 4 fiche

Ce vocabulaire, vise à faciliter la rédaction et la traduction des lois, des règlements et des

autres documents intéressant les municipalités canadiennes, et à favoriser une certaine normalisation de la terminologie utilisée. Il contient également la liste des sources, une bibliographie sélective des transports urbains et de la construction routière, ainsi qu'une liste des bulletins de terminologie. CA SC TR

### Terminologie du logement et du sol urbain

par J. Le Néal et C. Morettin. Ottawa : Bureau des traductions ; Fédération canadienne des municipalités, 1981. viii, 210, viii, 210 p. (Bulletin de terminologie ; 172) *Bilingue* (Housing and urban land terminology). ISBN 0-660-50814-1 MICROLOG 90-02669 5 fiche

Ce document présente la terminologie du logement et du sol urbain. Il traite particulièrement du zonage et de l'aménagement foncier, ainsi que d'autres domaines dont le logement, la rénovation urbaine l'évaluation foncière, le droit de propriété et l'immigration. On y fournit également la liste des sources, la bibliographie sélective du logement et du sol urbain, du bâtiment, et de la prévention des incendies. CA PL SC

### Terrace Bay District fisheries management plan, 1989-2000

Toronto : Ministry of Natural Resources, 1989. xii, 30 p. maps Bibliogr. *Fold. map not filmed*. ISBN 0-7729-2224-1 MICROLOG 90-05891 1 fiche

Terrace Bay District is one of 5 administrative districts within the North Central Region on Lake Superior. The fisheries resources supports a wide variety of different uses from commercial fishing to tourism and recreational sport fishing. This document contains fisheries resource information and management strategies and tactics for long-term management to 2000. Management direction is suggested for the sport fishery, the commercial fishery, lake trout management and Indian fishing agreements. Management activities include improvement of environmental quality, increased scientific and technical information, improved access to Lake Superior, promoting the use of underutilized species, and maintaining, restoring or enhancing fish stocks and fishing opportunities. ### Terrain classification system for British Columbia -- Rev.

contributing editors, D.E. Howes and E. Kenk. Victoria : Ministry of Environment, Recreational Fisheries Branch ; Ministry of Crown Lands, Surveys and Resource Mapping Branch, 1988 viii, 90 p. ; ill. Bibliogr. ISBN 0-7718-8678-0 MICROLOG 90-00647 2 fiche

Manual providing an updated and revised edition of the 1976 system, designed for the classification of surficial materials, landforms and geological processes. It was specifically developed to provide an inventory of the terrain features in the landscape and to show their distribution, extent and location. The system is scale independent and provides base data applicable for a wide range of natural resource applications including planning, management, impact assessment and research. The data is conveyed in map form by the use of terrain unit symbols and is conducive to computer digital storage, management and processing. A glossary of terms is included. BC NR PR PS SC

### Terrain disturbance due to summer off-road vehicle use in central Keewatin, Northwest Territories, Canada

by L.D. Dyke. Ottawa : Indian and Northern Affairs Canada, Northern Affairs Program, 1985. 47 p. ; ill. Bibliogr. (Environmental

studies ; no. 36) ISBN 0-662-14301-9  
MICROLOG 90-04623 1 fiche

Light tracked vehicles (weight up to 4000 kg) can provide the most economic method of moving equipment during mineral exploration in remote areas. The summer use of vehicles on thawing permafrost soils may begin an unstable period of erosion however, as runoff, channelled by vehicle ruts, thaws and erodes permafrost. Land use permits allowing summer vehicle use in the Northwest Territories recognize this possibility and require that the surface be in a condition to fully support vehicles without rutting. This study describes the response of till and peat in the central District of Keewatin to summer off-road vehicle use. It provides an explanation of processes controlling the response of these materials to disturbance and suggests procedures for minimizing disturbance to vegetation. Two companies requesting tracked vehicle use for the movement of diamond drills during the summer of 1980 were issued with land use permits on the condition they participate in a monitoring program and confine vehicle use to a geographically defined area.

### Territorial Use Rights in Fishing (TURFs) on Lake Titicaca, Peru

by D.P. Leveil. Vancouver, B.C. : University of British Columbia, School of Community and Regional Planning, 1987. i, 15 p. Bibliogr. (Discussion paper ; no. 12) ISSN 0828-2439  
MICROLOG 90-05477 1 fiche (Available on fiche only)

Examination of the existence of territorial use rights in fishing (TURFs) along the Peruvian shores of Lake Titicaca, relying upon a variety of sources which consider both the history and ethnography of Lake Titicaca shore dwellers. The report gives a definition of TURFs and the main characteristics of Lake Titicaca fisheries; reviews the historical evolution of those fisheries and emphasizes the restriction of fishing activities to a particular socio-economic group; analyzes the organization of fishing during Inca times and the early colonial period to demonstrate that this exclusiveness was based on formally granted TURFs; and demonstrates through an analysis of reported conflicts over fishing grounds that the persistence of TURFs is a widespread rather than a localized phenomenon.

### A Test burn of chlorophenol contaminated wood wastes at Northwood Pulp Mill, Prince George, B.C. : summary report

Victoria : Ministry of Environment ; Ottawa : Environment Canada, 1989. ix, 47 p. : ill. Bibliogr. ISBN 0-7726-0980-2  
MICROLOG 90-00642 1 fiche

A series of tests was conducted on an industrial woodwaste (hog fuel) fired boiler at Northwood Pulp and Timber Ltd., Prince George, B.C. The test burn was designed to determine the capability of this combustion system to destroy low levels of chlorophenols, dioxins and furans that sometimes contaminate hog fuel. The test burns, completed in September 1987, involved the burning of hog fuel specially acquired without adding chlorophenol solution; hog fuel with chlorophenol solution added at a nominal concentration of 50 ug/g; and hog fuel with chlorophenol solution at a nominal concentration of 400 ug/g. Ambient air quality was monitored concurrently during the days of testing. During all test conditions, the boiler was maintained at constant steam production of about 100 tonnes/hr, or about 60% of maximum continuous rating.

### Testing of New Brunswick oil shale in R.P.C. test facility

by P. Salib and P. Eng. Fredericton : Dept. of Natural Resources and Energy, Minerals and Energy Division, 1990. iv, 94 p. : ill. Bibliogr. (Open file report ; 90-2) ISSN 0712-4562  
MICROLOG 90-03191 2 fiche

The oil shale deposits of the Albert Formation in the Moncton Subbasin, New Brunswick, are considered to be Canada's largest and highest grade oil shale reserves. The viability of N.B. oil shale would improve if it were utilized with other fossil fuel resources such as high sulphur N.B. coal. For this reason, one of the concepts under investigation is the possibility of adding a retort to the circulating fluidized bed unit of N.B. Power, located at Chatham, N.B. This report presents the results of retorting trials carried out on 2 oil shale samples from the Albert Formation. One sample is from the Albert Mines zone (32.4 Imp.Gal/short ton) and the other is from the Dolomite Marlstone Zone (10.9 Imp.Gal/short ton).

### Testing the effective vocabulary capacity method of evaluating speech recognizers

by J.M.E. Van de Vegte and M.M. Taylor. North York, Ont. : Defence and Civil Institute of Environmental Medicine, 1989. 4 p. : ill. Bibliogr. Presented at the ESCA Workshop : Speech input/output assessment and speech databases.  
MICROLOG 90-00968 1 fiche

The performance of isolated-word speech recognizers is typically measured using error rates. To obtain reliable error rate estimates for good recognizers can require many thousands of subject utterances, and, the better the recognizer, the more sensitive the error rate is to the actual challenge vocabulary and the skill of the talker. The Effective Vocabulary Capacity (EVC) is the maximum vocabulary that a recognizer can in principle handle at a given error rate. It relies on

measures that are relatively independent of the challenge vocabulary and which require only tens of hundreds of test utterances. This document tests the EVC algorithm for both synthetic and real recognizer data.

#### A Theoretical model for the study of migration and urbanisation

by D. Achanfuo-Yeboah. Edmonton : University of Alberta, Dept. of Sociology, 1990. 7 p. Bibliogr. (Research discussion paper ; no. 66) ISSN 0317-2473  
MICROLOG 90-06454 1 fiche

The great diversity of processes in migration and urbanisation makes it necessary to have a framework which would allow migration and urbanisation to be studied with all their attributes. Several factors work individually and jointly to influence migration and urbanisation. These may be classified as demographic, social, cultural, economic, and political. The proposed model is based on the principle that sociocultural, economic and political developments work through a number of variables, to increase the propensity to migrate and, hence, influence internal migration and urbanisation. The utility of this model is that it will make it easier to carry out empirical studies of the determinants of migration and urbanisation.

### The Thermal decomposition of pyrite

by A.W. Coats and N.F.H. Bright. Ottawa : Canada Centre for Mineral and Energy Technology, Mineral Sciences Laboratories, 1965. 12 p. Bibliogr. (Report ; MS 65-114) MICROLOG 90-04689 1 fiche

Report on the kinetics of the thermal decomposition of purified pyrite to pyrrhotite and sulphur in a dynamic argon atmosphere from 600C-653C. The reaction was followed by the rate of weight loss as indicated by a quartz spring balance and also by the rate of progression of the pyrite/pyrrhotite interface into a cylindrical, compressed, polycrystalline pellet.

### Thermal instability of underground power cables

by H.S. Radhakrishna and K.C. Lau. Toronto : Ontario Hydro, Research Division, 1989. 20 p. : ill. Bibliogr. (Report ; no. 89-301-K) MICROLOG 90-03998 1 fiche

The performance of underground power cables is critically affected by the thermal properties of the backfill around the cable. When the heat transfer process induces rapid thermal drying of the backfill soil causing the cable temperature to rise rapidly, the cable system is said to be thermally unstable, or results in thermal runaway. This report reviews the mechanism of thermal runaway and proposes a rational basis for identifying the potential for thermal instability in various types of soils. The relevance of the factors selected for the identification system is substantiated by the results of a parametric study.

### Thermal maturity of Carboniferous and Permian rocks of the Sverdrup Basin, Canadian Arctic Archipelago

by J. Utting...et al. Ottawa : Energy, Mines and Resources Canada, Geological Survey of Canada, 1989. 20 p. : maps. Bibliogr. (Paper ; 89-19) ISSN 0068-7650 ISBN 0-660-13253-2 MICROLOG 90-01609 1 fiche

Assessment of the thermal maturity of Carboniferous and Permian rocks of Sverdrup Basin, based on the colouration of pollen and spores, colouration of conodonts, and vitrinite or bitumen reflectance measurements, although it was not possible to apply all of these criteria to every sample. Correlation of the various indices was achieved by comparing samples for which at least 2 of the techniques were used. Five hundred and fifty outcrop and subsurface core samples were studied from 109 localities, and the results plotted on maps.

### Thermal performance and delivery capability of a 350-litre electric storage water heater

by N.H. Milligan. Toronto : Ontario Hydro, Research Division, 1989. 11 p. : ill. (Report ; no. 89-99-K) MICROLOG 90-00407 1 fiche

The majority of residential storage water heaters have a capacity of 175 or 270 litres. These water heaters are economical and meet most residential requirements. However, there is a need for a larger tank which can store and deliver more hot water. Consequently, a 350-litre heater was developed by a Canadian manufacturer to meet this need. The prototype 350-litre (nominal) electric storage water heater was tested in accordance with selected clauses of CSA Standard C191 and a load management test was performed to determine whether the tank is suitable for load management in single and multi-residential buildings. This report presents the results of this test program.

### Think and act family : a guide for public and private organizations

opinion given by the Conseil de la famille to the Minister for the Status of Women, responsible for Family Policy. Quebec : The Conseil, 1989. 82 p. Bibliogr. (Opinion ; no. 89.2) *French ed. (Penser et agir...)* : 90-02811/1. MICROLOG 90-04481 2 fiche

This document presents the Council's opinion in two parts. Part One explains the context in which the family policy operates. It recalls the

guidelines and objectives adopted by the Conseil des ministres and situates the family and family policy in the context of today's society. It explains the concept of evaluation, and comments on creativity in evaluation. Part Two consists of an evaluation grid or frame of reference for evaluating policies, programs and services from the point of view of the family. It develops family criteria and the Conseil de la famille suggest questions that can serve to verify whether these criteria are respected. Finally, it indicates the steps that should be taken to carry out a coherent and meaningful evaluation.

# **Time-domain modelling of ocean clutter for ground wave radar**

by R.H. Khan, B.J. Dawe and J. Walsh. St. John's : Centre for Cold Ocean Resources Engineering, 1989. 4 p. : ill. Bibliogr. Presented at the Canadian Conference on Electrical and Computer Engineering. MICROLOG 90-00378 1 fiche (Available on fiche only)

The detection performance of high frequency ground wave (HFGW) radar systems, for over-the-horizon detection of surface targets, is limited by the back scattering returns from the ocean surface. An improved modelling of the ocean clutter is the key to enhanced target detection with HFGW radar; this would enable clutter suppression techniques to be refined and a higher signal-to-noise ratio to be achieved. This paper proposes a wave packet model for the dominant components of the ocean back scattering signal and suggests a technique to exploit this non-stationary characteristic of the ocean clutter to improve target detection performance. The technique is based on the Wigner-Ville distribution, which is an emerging tool for non-stationary spectral analysis. Results are presented to demonstrate the enhanced detection performance of the proposed technique.

#### Toward 2000 : external consultation : a summary

Toronto : Ministry of Agriculture and Food, 1990. 24, 25 p. *Bilingual (Vers l'an 2000 : consultations...)*. ISBN 0-7729-6531-5  
MICROLOG 90-05759 1 fiche

The Ministry engaged in a consultation process with representatives of the agri-food industry as part of a larger process of reviewing its corporate goals, priorities and objectives for the 1990s. Consultation with the industry took place at a series of 14 meetings during October and November, 1989. At each meeting, groups discussed the issues to be faced over the next 5-10 years, if the Ministry has a role to play in these issues, and what it is. This report is a summary of the discussion on the environment; trade; animal welfare; government policy, programs and direction; land use/conservation/right to farm;

farm finance/income; and food safety/quality.

#### Toward a common future : a report on sustainable development and its implications for Canada

by M. Keating. Ottawa : Environment Canada, 1989. iii, 47 p. : ill. Bibliogr. *French ed. (Vers notre avenir à tous...)* : 90-02367/1. ISBN 0-662-17184-5  
MICROLOG 90-02368 1 fiche

Canada was one of the first nations to begin a national debate on sustainable development through the National Task Force on Environment and Economy, launched in 1986 by the Canadian Council of Resource and Environmental Ministers. This paper is a synopsis of issues that have been in the public debate on the future of the environment. The first section examines some of the major problems that must be dealt with, including climate change and the greenhouse effect, the ozone layer, acid and toxic rain, nuclear winter, chemicals, waste and garbage, cutting the forests, polluting surface and groundwater, and the destruction of habitat for other species. The second section describes some of the changes that will be needed to start moving toward sustainable development, such as making energy sustainable, improving waste management, saving wildlands and wildlife and population control. The implications of these changes for governments, business, public interest groups, education, and individual behaviour are also addressed.

#### Toward a management plan for the Seal Heritage River

by G. Dodds. Ottawa : Canadian Heritage Rivers Board ; Winnipeg : Manitoba Natural Resources, Parks Branch, 1990. iii, 28 p. : fold. maps. Bibliogr.  
MICROLOG 90-04953 1 fiche

In June 1987, the Canadian Heritage Rivers Board accepted the Province of Manitoba's nomination of the Seal River for designation as a heritage river. A river management plan is being prepared, with the first half of the process including public and government consultation to develop a draft plan. The publication of this draft plan begins the second

major stage of review. Heritage values are identified as recreational use, mining, hydro, and native use. Goals and objectives are set out for heritage, recreation, commercial and regional uses and a management program is given for each.

### Town of Athabasca parking study

Edmonton : Alberta Municipal Affairs, Planning Branch, Parkview Unit, 1989. 16 p. : maps. MICROLOG 90-05860 1 fiche

It was determined in the summer of 1989 that there was a lack of parking space in the town of Athabasca. It was also recognized that in order to define the problem more clearly, more data on actual parking characteristics and habits were needed. In September, 1989 the Planning Branch was asked to do a detailed parking study of the town's business core. This report summarizes the data collected over two days in October, 1989. The study represents a 'snapshot' in that it only identifies the parking pattern for a particular time period. AL MU PL PR SC TR

by B.C. Balram. Fredericton : Health and Community Services New Brunswick, 1990. vii, 78, vii, 75 p. Bibliogr. *Bilingual (Ville de Newcastle : étude...)*. CSI 45125.202. MICROLOG 90-06560 2 fiche

This is the final report of the study which was commissioned Aug. 31, 1988. The main objectives of this study are to validate the cancer statistics of Newcastle and evaluate the health status of its residents. Included in this report are a set of recommendations which resulted from the findings of this health study. AP HE MU ST

### Toxicity of methoxychlor to fish

Vegreville, Alta. : Alberta Environmental Centre, 1990. vi, 82 p. : ill. Bibliogr. MICROLOG 90-07273 1 fiche

Methoxychlor (MEO-DDT), the p,p1-methoxy analogue of DDT, is a broad-spectrum chlorinated hydrocarbon insecticide used mainly to control biting fly larvae, particularly black flies and mosquitoes, in surface waters. It is not nearly as persistent as DDT, and accumulates at a much slower rate than DDT, making its impact on non-target organisms minimal compared to that of DDT. In Alberta, the main environmental interest surrounding the use of methoxychlor is its application to the Athabasca River to control black fly larvae in the vicinity of the Town of Athabasca. This study examines the acute, subacute and chronic effects of methoxychlor to fish, principally rainbow trout. Residues were determined in water, sediment and fish samples from the major subprojects of the study. AL EV FI PR SC

### La Toxoplasmose : un résumé des risques sur le plan professionnel

par E. Counter. Hamilton, Ont. : Centre canadien d'hygiène et de sécurité au travail, 1989. i, 6 p. Bibliogr. ISBN 0-660-92757-8. MICROLOG 90-02174 1 fiche

La toxoplasmose est une maladie infectieuse transmise aux hommes par les animaux. C'est une maladie commune rarement diagnostiquée parce que la plupart des personnes contaminées ne tombent pas malades. Chez ceux qui présentent des symptômes, la maladie est bénigne et se traduit seulement par une enflure des ganglions lymphatiques et un léger malaise. Selon certaines estimations, un tiers des Canadiens ont été infectés. Le nombre de cas de toxoplasmose reliés au travail est inconnu. Ce document fait la lumière sur cette maladie. ● CA EV HE LA SC

### Trace element geochemistry and till provenance in The Pas-Flin Flon area, Manitoba

by E. Nielsen and H.D. Groom. Winnipeg : Manitoba Energy and Mines, Geological Services, Mines Branch, 1989. iii, 20 p. : ill.,

maps. Bibliogr. (Open file report ; OF89-3) MICROLOG 90-02348 1 fiche

Regional basal till investigations and surficial geological mapping were conducted throughout much of northwestern Manitoba to provide baseline geochemical and surficial geological maps to assist the mineral exploration industry in the search for mineralization. These geochemical surveys were restricted to areas underlain exclusively by metasedimentary, metavolcanic and intrusive rocks of Precambrian age. Difficulties in correlation arise when till sheets are traced across different bedrock lithologies and physiographic regions, since till correlation is essential in any area to determine the sequence of glacial events. This regional till sampling program was undertaken in The Pas-Flin Flon area to document trace element geochemical, petrographical and textural changes in the surface till across the Precambrian-Paleozoic boundary and to elucidate the ice flow history of the area. ### Trace metals in the marine bird food chain downstream from the El Salvador Copper Mine, Chile

by K. Vermeer and J.C. Castilla. Ottawa : Canadian Wildlife Service, Pacific and Yukon Region, 1989. 16 p. Bibliogr. (Technical report series ; no. 83) ISSN 0831-6481 ISBN 0-662-17374-0. MICROLOG 90-06285 1 fiche

Untreated mining wastes are discharged through a semi-artificial canal directly to the marine shore from the El Salvador copper mine in northern Chile. Since no chemical analyses of marine organisms has been conducted along the 20 km beach area contaminated with tailings, a pilot study was initiated in the last weeks of November 1981 and March 1982 to determine trace metal residues in beach deposits, algae, marine invertebrates, marine birds and prey from their stomachs. This report presents the results of the analysis. ● CA EV LS SC

### Tracer gas used for the mine fire simulations

by G.W. Klinowski and D.J. Kennedy. Ottawa : Canada Centre for Mineral and Energy Technology, Coal Research Laboratories, 1989. vi, 30 p. : ill. (Report ; CRL 89-87(TR)) MICROLOG 90-03377 1 fiche

Over the past 7 years, the Cape Breton Coal Research Laboratory has designed, built, tested and proved the necessary hardware, software and methodology of tracer gas based surveying techniques for mine gas ventilation. Tracer gas based ventilation techniques can be and were used in many problematic situations where the standard ventilation methods are inadequate, such as the emergency imposed by a mine fire. During the fire simulation exercise, tracer gas release systems emulating the fire are positioned in sensitive locations within the mine. The tracer gas concentrations in air samples collected in strategic points of the mine indicate their 'contamination' levels. Simulations undertaken at the Orchard Valley Mine were planned to assert the integrity of so-called 'smoke-free' roadway and to gain knowledge of the smoke distribution patterns in the event of fires erupting in 2 different locations within the mine. The performance, portability and flexibility of the equipment was also tested. ● AP CA CM NR PS SC

#### Trans-boundary air quality relations

by J.E. Carroll. Orono, Maine : University of Maine, Canadian-American Center, 1990. 23 p. Bibliogr. (Canadian-American public policy ; no. 2) ISSN 1047-1073 ISBN 0-89101-076-9  
MICROLOG 90-06517 1 fiche (Available on fiche only)

The literature on air quality and international environmental relations, including Canadian-U.S. environmental relations, has burgeoned in the last decade but still lacks discussion connecting these transnational air pollution questions to broader concerns of the nation and society. This paper begins with a general treatment of questions of sovereignty, then discusses specific instances of Canadian-U.S. transboundary air quality history, describing the broader implications of what otherwise may appear to be site-specific matters of local concern. The broader issues of acid rain are then discussed, with possible remedies suggested.

#### Transfer and machine translation modularity

by P. Isabelle and E. Macklovitch. Laval, Que. : Dept. of Communications, Canadian Workplace Automation Research Centre, 1986. 12 p. : ill. Bibliogr. *French ed. (Transfert et modularité en...)* : 90-05625/1.  
MICROLOG 90-06535 1 fiche

The transfer components of typical second generation (G2) mechanical translation (MT) systems do not fully conform to the principles of G2 modularity, incorporating extensive target language information while failing to separate translation facts from linguistic theory. The exclusion from transfer of all non-contrastive information leads to a system design in which the three major components operate in parallel rather than in sequence. It is also proposed that MT systems be designed to allow translators to express their knowledge in natural metalanguage statements.

#### Transfer of suspended particles from liquid effluents of nuclear generating stations through the environment

by F.J. Devereaux. Ottawa : Atomic Energy Control Board, 1989. ii, 23 p. Bibliogr. (Report ; INFO-0324)  
MICROLOG 90-04397 1 fiche

Due to the complexity of the environmental transfer of suspended particles in aquatic systems, the available literature usually deals with specific pathways and mechanisms of the transfer process. This paper gives a brief overview of the entire transfer process, including potential routes of transfer in both the marine and freshwater environments, and tentative conclusions.

#### Transfert et modularité en traduction automatique

par P. Isabelle et E. Macklovitch. Laval, Québec : Ministère des communications, Centre canadien de recherche sur l'informatisation du travail, 1986. 12 p. Bibliogr. *L'éd. anglaise (Transfer and machine translation...)* : 90-06535/1. ISBN 0-662-95515-3  
MICROLOG 90-05625 1 fiche

La modularité est une caractéristique qui définit les systèmes de traduction automatique de la deuxième génération. Les composantes de transfert des systèmes de traduction automatique (TA) de la deuxième génération (G2) les plus connus ne se conforment pas tout à fait aux principes de modularité des G2, car elles intègrent beaucoup trop d'informations sur la langue cible sans réussir à séparer les faits et la modularité en traduction automatique et en fait ressortir les points contrastifs de la théorie linguistique. Ce document porte sur le transfert saillant.

#### Transfert technologique pour les pêches du nord

Ottawa : Ministère des pêches et des océans, 1989. ii, 49 p. *Rapport du Atelier sur le transfert technologique pour les pêches auquel ont participé conjointement l'industrie et le gouvernement. Bilingue (Northern fisheries technology...)*. ISSN 0835-7005 ISBN 0-662-1051-0  
MICROLOG 90-04884 1 fiche

Cet atelier avait pour but de fournir une tribune qui permettrait aux participants d'échanger de l'information technique et de partager des expériences et des idées sur des activités de développement industriel. Il a surtout porté sur la pêche commerciale dans les régions de l'île Baffin, de Keewatin, du nord du Québec et du nord du Labrador. On y a

traitée des sujets tels la réduction des coûts/efficacité énergétique que permettent les programmes de formation concernant le transfert technologique pour le secteur d'exploitation, et initiatives de développement industriel pour les espèces sous-exploitées. On donne aussi plusieurs recommandations qui touchent ces questions.

#### Transformation reaction and corrosion behaviour of two zirconium-copper-molybdenum alloys

by H.M. Skelly and C.F. Dixon. Ottawa : Canada Centre for Mineral and Energy Technology, Physical Metallurgy Research Laboratories, 1969. iii, 31 p. : ill. Bibliogr. (Report ; R 204)  
MICROLOG 90-04511 1 fiche

Investigation to determine the transformation reaction of a Zr-1.0% Cu-1.5% Mo alloy quenched from the beta phase and aged at 500C (930F) and to observe any anomalies in its corrosion behaviour during transformation when tested in steam at 400C (750F) and 1500 psi. The corrosion behaviour of a second alloy, Zr-0.5% Cu-0.5% Mo was also examined. Micro-examinations were made of the corrosion film during transformation and an electron-probe microanalyser was used to investigate the composition of the intermetallic phases.

#### Transformation reactions and mechanical properties of zirconium alloys containing copper and molybdenum

by C.F. Dixon. Ottawa : Canada Centre for Mineral and Energy Technology, Physical Metallurgy Research Laboratories, 1960. i, 22 p. : ill. Bibliogr. (Report ; PM-R 60-6)  
MICROLOG 90-04670 1 fiche

At the present time, zircaloy is generally considered to be the most attractive material available for water-cooled power reactor fuel cladding and core components such as pressure tubes, but projected power reactor designs already require a better material having improved mechanical properties and corrosion resistance at the higher operating temperatures contemplated. As part of the Canadian program directed toward natural uranium fuelled power reactor development, a study of zirconium-based alloys containing between 1 and 2 wt% copper, combined with from 1.5 to 2.5 wt% molybdenum was made. In this investigation, the effects of solution and ageing heat treatments were examined in metallographic structure and resulting room temperature mechanical properties. An assessment of hot working fabrication characteristics was also made.

#### Transient annealing characterization of irradiated MOSFETs

by T. Cousins and K.M. Qureshi. Ottawa : Defence Research Establishment Ottawa, 1990. xiii, 36 p. : ill. Bibliogr. (Report ; no. 1030)  
MICROLOG 90-05773 1 fiche

The electrical response of metal-oxide-silicon (MOS) technologies to incident nuclear (especially photon) radiation is a very complex, time-dependent function. This report reviews the physical processes governing this response and then experimentally examines them with the aid of the TATS-400 (Transient Annealing Test System). MOSFET responses to steady-state and pulsed photon and electron beams are characterized in terms of such parameters as threshold voltage shift and interface and oxide trap densities.

#### Translocation of the growth regulator uniconazole (XE-1019) in silver maple saplings after trunk injection in the spring

by G.P. Arron. Toronto : Ontario Hydro, Research Division, 1989. vi, 36 p. : ill. Bibliogr. (Report ; no. 89-60-K)  
MICROLOG 90-00408 1 fiche

Growth regulators inhibit tree growth and the application of such products to the trees under distribution lines trimmed on a regular basis might reduce the rate of regrowth and decrease the frequency of trimming. This study determined the effect uniconazole, applied by trunk injection, had on the growth of field-grown silver maple saplings in the 18 months post application, the movement of the growth regulator in the saplings, and what concentration of applied growth regulator was

present in the foliage over the same period. The presence of metabolites from uniconazole in the foliage collected in the fall was also investigated.

#### Transmission line refurbishment study : tests on Kingston type steel transmission towers, Smiths Falls

by S.G. Krishnasamy. Toronto : Ontario Hydro, Research Division, 1989. vii, 73 p. : ill. (Report ; no. 89-79-K)  
MICROLOG 90-01177 1 fiche

A comprehensive program was initiated by Ontario Hydro to study the condition of existing older overhead transmission lines and to assess the condition and remaining life of conductors, hardware, insulators, structures and foundations. As part of the ongoing transmission line refurbishment study, 3 single circuit 115 kV, Kingston type suspension towers on rock-anchor foundations were tested to failure. The type of loads applied on the towers were chosen to represent unbalanced loads due to broken skywire and conductor, heavy ice, strong wind and wind-on-ice loads. Selected tower members and foundations were instrumented to measure the member loads, tower deflections and foundation movement during various stages of testing. The measured values were compared with the corresponding predicted values.

### Transverse cracking distress and vertical dynamic impact load from heavy truck axles : a feasibility study

by G.J. Chong, W. Stephenson and M.E. Wolkowicz. Toronto : Ministry of Transportation, Research and Development Branch, 1989. ii, 18 p. : ill. Bibliogr. MICROLOG 90-01343 1 fiche

Results of a feasibility study using the dynamic tire force trailer to develop a relationship between vertical dynamic impact loads and the transverse cracks which generated these loads. The development of such a relationship enables the establishment of a threshold criteria to aid pavement designers in the maintenance and rehabilitation design decision process. Test runs were done on the westbound lanes of Highway 401 between Tilbury and Windsor on pavement built in 1952-53. ON PR PS SC TR

### Le Travail à temps partiel -- Rév.

par M. Baker. Ottawa : Bibliothèque du Parlement, Service de recherche, 1989. 17 p. Bibliogr. (Bulletin d'actualité ; 85-7F) *L'éd. anglaise (Part-time work) sur la même fiche.* ISBN 0-660-92898-1 MICROLOG 90-05730 1 fiche

Au cours des trois dernières décennies, la proportion des travailleurs à temps partiel est passée de 3,8 p. 100 de l'ensemble des personnes ayant un emploi au Canada en 1953 à 15,6 p. 100 en 1986. Depuis quelques années, des chercheurs prédisent qu'à la fin du siècle, plus de 20 p. 100 des personnes occupant un emploi au Canada pourraient travailler à temps partiel. L'an dernier, un plus grand nombre de personnes ont du accepter un travail à temps partiel, faute d'emploi à plein temps, ce qui a conduit certains syndicats et des groupements de femmes à revendiquer l'égalisation des salaires, des avantages sociaux et des conditions de travail. Ce document se penche sur cette question. CA LA

**Le Travail debout**

par A. Drewczynski. Hamilton, Ont. : Centre canadien d'hygiène et de sécurité au travail, 1988. ii, 8 p. : ill. ISBN 0-660-92414-5 MICROLOG 90-01998 1 fiche

Lorsqu'on travaille debout régulièrement, il arrive qu'on souffre de douleurs aux pieds, d'enflure des jambes, de varices, de fatigue musculaire générale, de douleurs lombaires, de raideurs dans le cou et les épaules et de divers troubles de la santé. Même lorsqu'on se tient debout immobile, il faut un effort musculaire considérable pour tenir le corps droit. Ceci a pour effet de réduire l'irrigation sanguine dans les muscles tendus. Cette insuffisance de l'irrigation sanguine fait qu'on se fatigue plus rapidement et il en résulte des douleurs dans les muscles des jambes, du dos et du cou qui servent à tenir le corps droit. Ce document se penche sur les risques pour la santé du travail debout.

### Trends in sizes of breeding duck populations in western Canada, 1955-89

by K.M. Dickson. Ottawa : Canadian Wildlife Service, 1989. 9 p. : ill. Bibliogr. (Progress notes ; no. 186) *French ed. (Tendances des effectifs...)* : 90-06275/1. ISSN 0069-0023  
ISBN 0-662-17501-8  
MICROLOG 90-03255 1 fiche

Changes in the size of duck populations have been monitored annually since 1955 over nearly 3.6 million sq km of breeding habitat in Montana and North and South Dakota in the U.S., the Canadian Prairie provinces, the Mackenzie Valley of the Northwest Territories, and parts of Alaska. The results of these surveys provide information on abundance and distribution of duck populations, as well as changes in habitat, and form a basis for management of most duck species. This analysis presents an objective technique for identification of temporal trends in population indices despite the large annual variations, using route-regression analysis to describe patterns in duck population indices for the western survey area.

### Trends in the per capita consumption and utilization of energy in six selected countries

by R.P. Charbonnier and W.H. Harper.  
Ottawa : Canada Centre for Mineral and Energy Technology, Energy Research Laboratories, 1968. 18 p. : ill. Bibliogr. (Report ; FRC 68/86-EPT)  
MICROLOG 90-04549 1 fiche

In order to compare the industrialization progress in various countries, their energy consumption and population data were obtained from a number of United Nations publications, and processed to find comparable indices of unitary consumption of the main energy sources. The study is limited to Canada, the U.S., Great Britain, France, West Germany and Sweden, generally considered as having reached a mature stage of industrial development and without general overpopulation problems. Data used is from 1950-65, and includes per capita energy consumption in total Btu calorific contents of the main energy resources used, and per capita energy consumption of liquid fuels (mainly oil products), solid fuels (mainly coal products), hydro-electricity and natural gas, as well as trends in the individual utilization of energy.

### Trends in types of accident by occupation, 1984-88

Victoria : Workers' Compensation Board of British Columbia, Statistical Services, 1989. 142 p. *CSI 38161.201*  
MICROLOG 90-04449 2 fiche

Trends in types of accidents by occupation from 1984-88. The claim counts shown for

each year are the number of wage-loss injuries that occurred in the year and were accepted by the end of the first quarter of the following year. The claim counts include fatal and permanent disability claims. Data is given by broad and detailed occupational categories, by year and accident category.

### A Trial to establish technical and commercial viability of cod frame mince recovery

Canpolar Inc. St. John's : Dept. of Fisheries and Oceans, Newfoundland Region, Fisheries and Habitat Management, Fisheries Development Division, 1988. vii, 25 p. : ill. (Canadian industry report of fisheries and aquatic sciences ; no. 197) ISSN 0704-3694  
MICROLOG 90-02239 1 fiche

The Canpolar mince washer technology was proved in principle at a fish plant during the late summer of 1987. The technology showed the potential to increase the productivity of an Atlantic Region fish plant from 5% to 15% by utilizing mince derived from cod waste as edible portions and for surimi feedstock. The prototype was redesigned over the winter of 1987/8. A demonstration program was undertaken to assess in-plant handling and production methodologies for collar and frame mince products of known quality and value; to assess the performance of the machine operating on the production line in a fish plant over an extended period; and to assess the production and market economics for full-scale

frame mince recovery materials.

### Trilobites from the Survey Peak, Outram and Skoki formations (Upper Cambrian-Lower Ordovician) at Wilcox Pass, Jasper National Park, Alberta

by W.T. Dean. Ottawa : Energy, Mines and Resources Canada, Geological Survey of Canada, 1989. 141 p. : ill. (Bulletin ; 389) ISBN 0-660-13421-7  
MICROLOG 90-02314 2 fiche

Comprehensive description of the trilobites belonging to 48 genera from the Upper Cambrian to Lower Ordovician survey peak, Outram and Skoki formations at Wilcox Pass, Alberta. One new genus and 6 new species are described, and type material for 17

previously described species from corresponding strata elsewhere in the Rockies is redescribed or re-illustrated. This report establishes a biostratigraphic framework for the Wilcox Pass sequence, from the highest part of the Upper Cambrian trempealeau series through the entire Lower Ordovician, based on trilobite zones. Some evidence of diachronism between the succession at Wilcox Pass and strata in areas to the south is demonstrated. AL CA NR PS SC

#### Truck weight and dimension regulations and containers

by F.P. Nix, A.M. Clayton and J.R. Billing. Toronto : Ministry of Transportation, Transportation Technology and Energy Branch, 1990. ii, 23 p. : ill. Paper presented at the RTAC Annual Conference. MICROLOG 90-06139 1 fiche

Regulations governing truck weights and dimensions and standards on container weights and dimensions are closely related. The original container standards, established by the International Standards Organization (ISO) in 1964, were set with over-the-road movements, as compared to rail or marine movements, as the most limiting factor. Since the early 1970s, however, truck regulations have changed significantly and this has led to the use of an increasing number of non-ISO containers, resulting in suggestions for a new set of standards for large containers. This paper investigates the relationship between containers and truck size and weight regulations in Canada. ON PR SC TR

Up to 1975, only 10 species of tubificids were known in Lake Baikal. The data on Baikal tubificids have been added to considerably in recent years. This paper describes oligochaete specimens collected from the benthos around the northern extremity of Lake Baikal from June to October from 1975-79. • CA CF FI LS SC

#### Tumors in rats caused by the damage resulting from the administration of malachite green to an ancestral generation

by G. Werth and V.V. Yevdokimov. Ottawa : National Research Council, Canada Institute for Scientific and Technical Information, 1988.

20 p. : ill. Bibliogr. (Canadian translation of fisheries and aquatic sciences ; no. 5426) Originally published in German. ISSN 0704-3716 MICROLOG 90-01520 1 fiche

After administration of toxic doses of malachite green, rats exhibit the reactions symptomatic of asphyxiation. Examination of the ECG shows signs of oxygen deficiency and reveals the same symptoms typical of deaths occurring at high altitude or in the decompression chamber. An experiment was then done to control the toxic effects of malachite green by administering an enzyme (cytochrome-c) which is important in cell respiration. These tests suggested that malachite green might poison the organism via the cytochrome system. This led to a series of tests involving generations of rats in which one group was administered malachite green, another group received malachite green and an intravenous dose of cytochrome-c and a third group received nothing. This paper describes the result of these experiments and speculates on their association with the development of cancers. • CA CF LS SC

#### Turbidity and selected water quality characteristics of the Fraser River at Hell's Gate, 1965-85

by J.A. Servizi and R.W. Gordon. Cultus Lake, B.C. : Dept. of Fisheries and Oceans, Fisheries Research Branch, Cultus Lake Salmon Research Laboratory, 1989. iv, 11 p. : ill. Bibliogr. (Canadian data report of fisheries and aquatic sciences ; no. 755) ISSN 0706-6465 MICROLOG 90-00024 1 fiche

The Fraser River rises in the Rocky Mountains and flows 1,368 km through the interior plateau and Coast Mountains to its mouth near Vancouver. The river is highly turbid during most of the year owing to erosion. As part of a program to monitor selected water quality parameters, samples were collected at Hell's Gate between November 1965 and October 1985. Turbidity, temperature and river gauge height were measured throughout the study period on a nearly daily basis. Measurements of pH and conductivity commenced in November 1975. Suspended solids (non-filterable residue) were measured commencing January 1979. • BC CA CF EV NR PS SC

#### Turkey Point Provincial Park management plan, 1989

#### Two species of *Chloromyxum* (Myxozoa: *Myxosporae*) in chum salmon : *Oncorhynchus keta* (Walbaum) taxonomy and life cycle

by S. Uruwa and O. Hiroi. Ottawa : National Research Council, Canada Institute for Scientific and Technical Information, 1986. 16 p. : ill. Bibliogr. (Canadian translation of fisheries and aquatic sciences ; no. 5240) Originally published in Japanese. ISSN 0704-3716 MICROLOG 90-02711 1 fiche

The protozoan *Myxosporidium Chloromyxum* parasitizes mainly the gall bladder of freshwater fish. Most reports on this parasite deal with morphology but the ecology remains virtually unknown. This paper describes the morphology of 2 species of sporozoan, using a scanning electron microscope. A taxonomic reexamination was also performed dealing with a known species. The seasonal variation in appearance rates in chum salmon is clarified and the relationship between this parasite and the life history of the host is discussed. • CA CF FI LS SC

#### Two steps forward : human-resource management in a high-tech world

edited by Gordon Belcher, Keith Newton and Joanne Godin. Ottawa : Economic Council of Canada, 1990. xi, 64 p. French ed. (*Une Double révolution...*) on the same fiche. ISBN 0-660-13589-2 MICROLOG 90-06439 2 fiche

This case book is about innovation in Canadian organizations. As such, it covers a variety of technologies in a number of industries. It focuses attention on the human side of the innovation process. It highlights the keys to successful innovation, and sets out directions that Canadian employers and workers might consider in order to make technology work for them. CA LA PA

#### Two- and three-phase relative permeability at elevated temperatures in heavy oil systems

by B.B. Maini. Calgary, Alta. : Petroleum Recovery Institute, 1989. vi, 114 p. : ill. Bibliogr. CANMET contract: 89019-01-SQ. MICROLOG 90-03386 2 fiche

In Part I of this report, a series of tests were conducted to evaluate the effect of flow rate on measurements by the displacement technique at

3 different temperatures. The unsteady-state measurements of relative permeability were compared with steady-state measurements in the same rock-fluid system. To evaluate the effect of viscosity ratio, relative permeability measurements were carried out with mineral oils of different viscosities. In Part II, 3-phase relative permeability measurements were carried out at 100C and 3.5 MPa pressure using the steady-state technique. The system used in these measurements comprised clean silica sand, a viscous mineral oil (500 mPa.s at 20C), de-ionized water and nitrogen gas. Stone's method I and II predictions of oil relative permeability were compared with the experimental data and the method I correlation modified. Data from 6 other sources were selected to test Stone's method I.

#### Uncertainty in exposure of underground miners to radon daughters and the effect of uncertainty on risk estimates : a research report

SENEC Consultants Limited. Ottawa : Atomic Energy Control Board, 1989. x, 292 p. : ill. Bibliogr. (Research report ; INFO-0334) MICROLOG 90-04407 4 fiche

An important problem in all epidemiological studies of underground miners is the reliability of the estimates of the miners' exposures. This study examines the various sources of uncertainty in exposure estimation for the principal epidemiologic studies reported in the literature, including the temporal and spatial variability of radon sources and changes to both mining methods and ventilation conditions. Uncertainties about work histories and the role of other hard rock mining experience are also discussed. The report also describes 2 statistical approaches, both based on Bayesian methods, by which the effects on the estimated risk coefficient of uncertainty in exposure can be examined. The regression model approach is applied to several published data sets from epidemiological studies of miners. Specific results are provided for each data set and apparent differences in risk coefficients are discussed. The studies of miners in the U.S., Ontario and Czechoslovakia are argued to provide the best basis for risk estimation at this time.

### The Uniform application of ALARA to all radiation workers

by C. Pomroy. Ottawa : Atomic Energy Control Board, 1988. ii, 15 p. Bibliogr. (Paper ; INFO-0329) *Paper presented at the annual meeting of the Canadian Radiation Protection Association.*

MICROLOG 90-04396 1 fiche

New information on the dosimetry and epidemiology of the atomic bomb survivors suggests that risk estimates may have to be revised upwards. This has focused increased attention on the ALARA principle, or optimization, as it is now known. This report explains optimization and the methods used in calculating it. It then applies the principle to various types of radiation workers in the 'nuclear industry', broadly interpreted to mean all licensed uses of radioactive material, including power utilities, uranium mine operators, and medical and research uses of radioactivity or radiation. An alternative approach to optimization calculation is suggested which entails the identification of sub-groups of workers with substantially higher doses to first discover the reasons for the higher than average doses, and to develop means to reduce them to the overall average.

### Unloading industrial fish : a study concerning unloading methods, equipment and economy

Ottawa : National Research Council, Canada Institute for Scientific and Technical Information, 1985. 5 p. (Canadian translation of fisheries and aquatic sciences ; no. 5163) *Originally published in Danish.* ISSN 0704-3716

MICROLOG 90-00107 1 fiche

In 1982 the Hirtshals Fisheries Society implemented a project to develop more rational equipment for the unloading of industrial fish which would be more cost effective and less environmentally unfavourable. This report is a preliminary study to produce a technical/economic analysis of existing unloading systems, taking into consideration the cargo space equipment of vessels.

### Updated summary of fish mercury data collected from six lakes on the Rat-Burntwood and Nelson River systems, 1983-89

by D.J. Green. Winnipeg : Manitoba Natural Resources, Fisheries, 1990. v, 277 p. : ill., maps. Bibliogr. (Manuscript report ; no. 90-10)  
MICROLOG 90-06271 3 fiche

Concern over public consumption of higher than acceptable levels of mercury in walleye and northern pike from the Churchill River diversion (Rat-Burntwood River lakes) led to the Northern Flood Agreement claim no. 12 in 1982, implementing monitoring of mercury in fish. The project was completed in 1985 and a further project on ecological monitoring was begun which included continued monitoring of muscle mercury levels in whitefish, walleye and northern pike from the same lakes. This report presents the vital data (sex, maturity, age, length, weight and muscle mercury levels) for individual samples taken between 1983-89.

### Updating of the program for simulation of Darlington shutdown and regulation systems

Serdula Systems Limited. Ottawa : Atomic Energy Control Board, 1988. ii, 17 p. Bibliogr. (Research report ; INFO-0309)  
MICROLOG 90-01126 1 fiche

Description of the current status of the developments of a simulation of the Darlington Nuclear Generating Station shutdown and regulating systems, DARSIM. The DARSIM program simulates the spatial neutron dynamics, the regulations of the reactor power, and shutdown system 1 and shutdown system 2 software. The DARSIM program operates in the interactive simulation (INSIM) program environment. DARSIM was installed on the APOLLO computer at the Atomic Energy Control Board (AECB) and a version for an IBM-PC was also provided for the exclusive use of the AECB. Shutdown system software was updated to incorporate the latest revisions in the functional specifications. Additional developments were provided to assist in the use and interpretation of the DARSIM results.

**Urban Waterfront Industry : planning and developing green enterprise for the 21st century : symposium report**

by Gene Desfor ; symposium sponsors Royal Commission on the Future of the Toronto Waterfront...et al. Toronto : The Commission, 1990. 30 p. Bibliogr. ISBN 0-660-17640-5  
MICROLOG 90-05568 1 fiche

On November 16, 1989, a 1-day symposium was convened to consider new ideas for developing environmentally sound industry on Toronto's port lands. This report summarizes the main ideas discussed and recommends procedures for advancing those ideas. It is based on a review of reports from the symposium workshops and on a distillation of the major concepts and suggestions put forward in workshop discussions. The paper examines current issues, problems and trends related to industry in the port lands, briefly reviewing current planning efforts and arguing that industry is essential for the waterfront; describes the history of the port lands and the problems and opportunities the past has left behind; details obstacles to environmentally sound industrial development and suggests possible policies to overcome those obstacles and encourage appropriate industry to locate there; and gives a brief summary and recommendations to the Royal Commission on the Future of the Toronto Waterfront. Information is also included on the participants, the schedule and the workshop discussion questions.

**The Use of consolidated fills for controlling violent pillar failure in Ontario mines**

Denison Mines Limited. Elliot Lake, Ont. : The Corporation, 1989. 246 p. : ill. Bibliogr. Photographs not filmed. CANMET contract: 69010-01-SQ.  
 MICROLOG 90-03378 3 fiche

Project involving the pouring of 109,000 tonnes of a 1:30 mix by weight of cement and classified mill tailings into a selected section of the 26 panel. In conjunction with the fill placement, the behaviour of pillars and hanging wall in the immediate area were monitored with rock mechanics instrumentation. The equipment included a 32 channel microseismic system with a close array of geophones dedicated to the test panel area, convergence meters installed for monitoring of hanging wall/footwall closure and instruments for monitoring relative magnitude and direction of ride action of hanging wall/footwall of the adjacent panels. Experimental high frequency-based microseismic equipment developed recently at Queen's University, Kingston, Ontario was tested to yield possible new information on pillar seismicity and pillar stress states. In-situ testing of the fill to determine fill stiffness was conducted at 2 sites. Numerical modelling using both elastic and non-linear type programs was carried out to simulate effects of fill on stresses and displacements in the pillars.

**The Use of indicators to show the state and recent trends in sustainable development in Canada -- Draft**

by G. Sheehy. Ottawa : Canadian Wildlife Service, State of the Environment Reporting Branch, Strategies and Scientific Methods Division, 1989. i, 95 p. (Technical report series ; no. 10)  
 MICROLOG 90-03120 2 fiche

The federal State of the Environment (SOE) reporting program was established to provide information on the status and trends of environmental quality and natural resource use. A major objective of the program is to encourage sustainable use of natural resources.

This report presents a framework for measuring changes and trends in socio-economic activities as indicators of a move towards sustainable development. The study framework involved identifying basic requirements for economic development to be sustainable; listing the different activities which together comprise economic development in Canada; applying the standards developed to the activities to determine quantitative indicators of trends in sustainability of economic development; identifying data sources for applying the sustainability indicators; and describing a proposed reporting format through the use of an example from the forestry sector.

**The Use of native and agricultural plant species to re-vegetate northern mine tailings**

by T.C. Hutchinson and A.L. Kuja. Ottawa : Indian and Northern Affairs Canada, Northern Affairs Program, 1988. vii, 50 p. Bibliogr. (Environmental studies ; no. 43) ISBN 0-662-16736-X  
 MICROLOG 90-04622 1 fiche

Five native plant species were selected from 2 harsh chemical environments (Smoking Hills, NWT and Sudbury, ON) which have acidic soils and heavy atmospheric pollution, as well as elevated soil metal levels. These plants were tested for their ability to survive and grow on 8 markedly different mine tailings from the Yukon, NWT and northern Ontario. From initial glasshouse trials on unamended tailings and on limed, fertilized tailings, sites were selected which represented a wide range of chemical and physical conditions. These were then used as field sites for trials of the native species, and for trials of 8 commercially used grasses and one legume. *Hordeum jubatum*, a vigorous weedy grass which colonizes disturbed areas in the sub-Arctic on neutral to alkaline soils and under drought conditions was included in the experiments and the tested tailings were chemically analysed. Droughts occurred in each year of the field trials, accentuated by the lack of soil organic matter and by the high sand content of the tailings. Amendments were made to the tailings by addition of lime to acidic ones to raise the pH, as well as additions of various combinations of peat and fertilizers. A sawdust mulch was used for half of the plots.

### The Use of recovered bituminous and concrete materials in granular and earth

by A.J. Hanks and E.R. Magni. Toronto : Ministry of Transportation, Engineering Materials Office, 1989. 87 p. : ill. Bibliogr. (Report ; MI-137) ISBN 0-7729-6297-9 MICROLOG 90-02524 2 fiche

Report on the use of recovered concrete and bituminous material as a substitute for unbound granular material in highway bases, sub-bases and shoulders. Recovered construction materials have been in use by various authorities in North America for many years, although in Ontario only certain municipalities have used them to any great extent. In keeping with the provincial government policy on sustainable development, the use of recovered materials is encouraged in highway contracts to reduce the use of virgin material and the accumulation of waste product, and use a product that is probably superior to standard granular materials. This report compiles and analyses experience to date and documents the results of laboratory testing undertaken on these materials. It also provides recommendations and special provisions covering the use of these materials in highway construction.

### The Use of simple, inexpensive microbial water quality tests : results of a three-continent, eighty-country research project

editors. B.J. Dutka and A.H. El-Shaarawi. Ottawa : International Development Research Centre, 1990. 186 p. : ill. Bibliogr. (Manuscript report ; 247e) MICROLOG 90-03203 2 fiche (Available on fiche only)

Conventional bacteriological tests for assessing water quality are too expensive and impractical for routine use in the vast majority of developing countries. For the past 6 years, the International Development Research Centre has supported research in the development of simpler and cheaper tests that would permit the monitoring and classification of drinking water sources. Researchers in Brazil, Chile, Egypt, Malaysia, Morocco, Peru, Singapore and Thailand have examined a number of promising non-traditional microbiological tests and adapted them to their particular conditions and needs. Correlation/relationship studies between these simplified tests and the conventional tests such as total coliform, fecal coliform and *E. coli* were conducted. In September 1988, a global meeting marking the end of the initial laboratory research phase was held in Banff, Alberta. This document was prepared from the presentations and discussions of the meeting. It also includes a listing of previously published papers that originated from this

network of projects.

### Use of sparrows *Passer domesticus* in western equine encephalitis monitoring in Manitoba, 1983-86

by E. Kucera. Winnipeg : Manitoba Environment, Environmental Management Services, 1990. ii, 14 p. Bibliogr. (Terrestrial standards and studies report ; no. 90-1) MICROLOG 90-04945 1 fiche

Monitoring of the incidence of Western Equine Encephalitis (WEE) virus antibodies in wild birds in Manitoba began in 1983, during the province's most recent outbreak of the disease among humans. In the absence of local data from previous years, the program was set up to determine the prevalence of antibodies to WEE, to compare the results with available data from other areas, and to establish a baseline to which future data could be compared. In 1983, birds were sampled at 25 locations, near all communities that were designated at risk. In subsequent years the sampling was continued, with minor modifications, in those areas where birds with WEE antibodies were found in 1983. Blood samples were taken from all songbirds in the first year, but only house sparrows were sampled after 1983 because very few other birds were caught at the sampling sites. The evaluations involved only the sparrows. All blood samples were tested for the WEE antibodies using the hemagglutination inhibition method.

### Usefulness of ethanol as a quality index of fish and fish products, I : the relationship between the sensory judgement of canned albacore and its ethanol content

by H. Iida, T. Tokunaga and K. Nakamura. Ottawa : National Research Council, Canada Institute for Scientific and Technical Information, 1986. 10 p. Bibliogr. (Canadian translation of fisheries and aquatic sciences ; no. 5215) Originally published in Japanese. ISSN 0704-3716 MICROLOG 90-02694 1 fiche

Quality evaluation of canned fisheries products for export is carried out mainly using sensory standards, according to export inspection standards. Since flavour is closely associated with freshness, flavour quality is regarded as very important. Skilled evaluators determine the flavour by holding a small amount of the sample in the mouth and by sniffing the same. As yet there has been no examination of the mode in which the volatile components contribute to the flavour determination. This paper reports on research conducted into the substances which are the basis of the sensory determination and analyzes the volatile components of cans of different quality.

• CA CF FI SC

### Usefulness of ethanol as a quality index of fish and fish products, II : changes of ethanol contents in raw fish during storage

by H. Iida...et al. Ottawa : National Research Council, Canada Institute for Scientific and Technical Information, 1986. 17 p. : ill. Bibliogr. (Canadian translation of fisheries and aquatic sciences ; no. 5216) Originally published in Japanese. ISSN 0704-3716 MICROLOG 90-02693 1 fiche

When the freshness of fish and shellfish drops, ethanol is produced in the meat. Tests were performed to develop a simple method of evaluating the quality of the raw materials used for heat-sealed foodstuffs and the quality of the product, using ethanol as an index. Research in this report is mainly based on the changes in the volumes of ethanol during the storage of the fresh fish and on comparisons between the volumes of trimethylamine (TMA), total volume of bad odour (volatile components) and the pH.

#### Using a blender to do quality checks of foaming agents

by E. Stechishen. Chalk River, Ont. : Forestry Canada, Petawawa National Forestry Institute, 1990. 3 p. : ill. (PNFI technical reports ; 3) French ed. (*Emploi d'un mélangeur...*) on the same fiche. ISSN 1180-2618 ISBN 0-662-17865-3  
MICROLOG 90-06803 1 fiche

A quick and easy way of determining whether a given batch of foam concentrate will perform according to established specifications is to generate some foam using a blender. This report identifies the effects of changing blender speed, blending time, volume of solution and mix ratio when using a 7-speed Osterizer blender with a 1.2 L container.

#### Using a wheel tracking machine for evaluation of asphalt rutting

by R. Yacyshyn, K.K. Tam and D.F. Lynch. Toronto : Ministry of Transportation, Engineering Materials Office, 1990. iii, 59 p. : ill. Bibliogr. (Report ; EM-93) ISBN 0-7729-6651-6  
MICROLOG 90-04827 1 fiche

Study to determine the capability and sensitivity of the wheel tracking machine (WTM) to evaluate rutting of asphalt mixes in a laboratory. The study evaluates the effects of 3 possible tire styles for testing with the WTM and uses a footprinting technique to compare inflation pressure to calculated tire sample surface contact pressures. Procedures were developed to examine rutting at constant temperatures at simulated summer pavement conditions, as well as the rutting effect of traffic on compacted asphalt mixes during cooling immediately after construction. Suitable arrangements for heating, controlling and recording beam temperature for the constant temperature mode, and decreasing temperature mode procedures by measuring the beam matrix and surface temperatures were determined. The effects of using flexible vs. rigid base lifts underneath the surface lifts were also compared.

#### Utilisation des anomalies morphologiques des larves de chironomides pour la surveillance des effets biologiques

par W.F. Warwick. Saskatoon, Sask. : Direction générale des eaux intérieures, Institut national de recherche en hydrologie, 1990. xii, 38 p. : ill. Bibliogr. (Rapport de l'INRH ; no 43) (Série scientifique ; étude no 173) L'éd. anglaise (*The Use of morphological...*) : 90-05572/1. ISBN 0-662-95960-4  
MICROLOG 90-06303 1 fiche

C'est par le biais des communautés biologiques que l'on peut observer directement les effets des contaminants car elles sont exposées aux transformations que subissent les substances dans les écosystèmes d'eau douce et y contribuent directement. Les réactions de ces communautés permettent de mesurer directement la charge de substances toxiques agissant un écosystème. L'objet de ce rapport est d'étudier le rôle des chironomides dans les communautés aquatiques et, plus particulièrement, d'examiner la possibilité d'avoir recours aux anomalies morphologiques des larves de ces insectes pour déceler la présence de matières contaminantes et évaluer l'importance de leurs incidences sur les écosystèmes d'eau douce.

#### Utilization of Newfoundland aggregates to produce concrete for offshore structures

by Nolan, Davis & Associates, B.F. Davis ; in co-operation with Hibernia Materials Consultants. St. John's : Nolan, Davis & Associates, 1989. 79 p. : ill. CANMET contract: 69174-01-SQ  
MICROLOG 90-03379 1 fiche

The anticipated construction of offshore oil drilling platforms in the Hibernia Field led to interest in the potential for producing high strength concrete from materials available in Newfoundland. The test program was designed to provide basic trial mix data using local materials and aimed at both offshore questions and other high strength concrete considerations. The program consisted of initially identifying 3 aggregate sources with good potential for the production of high strength concrete, developing a specification for the aggregate and procuring and processing chosen aggregates to the specification. The processed aggregates were then used in the preparation of a series of 9

trial mixes which included cementitious materials and admixtures readily available in Newfoundland. The trial mixes were tested for durability, strength and other properties.

#### Vancouver : an international centre for maritime commerce

prepared by Jonathan Seymour & Associates ; for the Maritime Sub-Committee of the Transportation Task Force, Asia Pacific Initiative. Vancouver, B.C. : The Sub-Committee, 1988. vii, 179 p. : ill. Bibliogr.  
MICROLOG 90-04417 2 fiche

This publication reviews recent developments in international shipping, including ship registration, second registers, open registers, and the differing approaches adopted by various countries towards the international shipping industry through taxation and other policies. It also establishes the features of the business environment which an aspiring centre needs to offer the international shipping industry. Finally,

it recommends action to address the shortfalls, to identify target groups, and to quantify the potential economic benefit which would likely accrue to Vancouver and British Columbia upon adoption of the recommendations.

# **Vegetable crops estimated production costs : Ontario, 1989**

by D. Hope...et al. Toronto : Ministry of Agriculture and Food, Economics and Policy Coordination Branch, 1989. v, 59 p. Bibliogr. (Economics information report ; no. 89-06) CSI 55101.008. ISSN 0708-482X MICROLOG 90-03894 1 fiche

Estimated production costs of vegetable production, based on the ACRES program. Input information was obtained from previous studies, surveys of the farm supply trade, technical input/output coefficients, and the consensus of producers, researchers, extension and agribusiness personnel. For each crop cost estimate, data was organized into variable and fixed costs and totalled to arrive at the cost of production both on a per acre and per hectare basis. Cash costs of production are also determined which include total variable costs, interest on the debt portion of investment in tractors and machines, and other overhead costs. The report includes details on the method of analysis. Vegetables are divided into the categories of those for fresh market and those for processing. Summary data are given for previous 5 years also.

# **Vegetation classification and LANDSAT-based analysis of peatlands in the Haileybury Clay Plain, Ontario**

by R.S.W. Bobbette and J.K. Jeglum. Sault Ste. Marie, Ont. : Canadian Forestry Service, Great Lakes Forestry Centre, 1990. 21 p. Bibliogr. (Information report ; O-X-407) ISSN 0832-7122 ISBN 0-662-17050-4 MICROLOG 90-04473 1 fiche

In Ontario there is currently much interest in wetlands and peatlands by numerous interest and user groups. The availability of LANDSAT imagery and access to image-analysis systems has stimulated research into the possibility of using these tools for wetland survey, inventory and mapping. This report describes a project undertaken in the summer of 1983 to examine the potential for classifying and mapping peatland vegetation and to compare conventional ground-truthing and air-photo analysis techniques with supervised LANDSAT classification. The study area is a block of 9 townships, centered

on Harley Township, north of New Liskeard, Ontario. Field data were gathered and samples were taken of vegetation cover and species composition, which were then described in terms of 2 tree strata, 3 scrub strata and herb, bryophyte and lichen strata. Additional descriptions and measurements were collected, including peat depth, depth to groundwater, pH of the groundwater, and peat pH for peat samples collected from 0-20 cm and 20-40 cm.

# **Vegetation establishment during 5 years following wildfire in northern British Columbia and southern Yukon Territory**

by E.T. Oswald and B.N. Brown. Victoria : Forestry Canada, Pacific and Yukon Region, Pacific Forestry Centre, 1990. vi, 46 p. : ill. Bibliogr. (Information report ; BC-X-320) ISSN 0830-0453 ISBN 0-662-17648-0 MICROLOG 90-05788 1 fiche

A study on revegetation following wildfires was conducted on 4 fires near the Yukon Territory-B.C. border (60N.Lat.). One wildfire occurred at Aishihik junction off the Alaska Highway in south-central Yukon in 1980, and 3 fires occurred near Watson Lake, Yukon Territory in 1982 - one in Yukon and 2 in B.C. This report covers the first 5 years of vegetation succession on 47 plots established in the areas burnt by these 4 fires. The report monitored and describes the forest vegetation development and succession on different sites, compared the seral stages among the site types, and developed prediction models for vegetation succession following wildfire.

**Vegetation resources of Vancouver Island**

by A.P. Harcombe and E.T. Oswald. Victoria : Ministry of Environment, 1990. 2 v. : ill., maps. Bibliogr. (MOE technical report ; 27) Contents: Vol. 1 : Forest zonation — vol. 2 : Vegetation types. ISSN 0840-9730 ISBN 0-7718-8912-7  
MICROLOG 90-06715 3 fiche

This report is part of the vegetation survey of Vancouver Island which provides basic information about the classification, distribution, and ecology of the vegetation and its related properties. Fieldwork for the survey was carried out from 1973-75. The report is contained in 3 volumes, of which this volume 1 describes the regional vegetation, within the biophysical forest zonation classification. Two forest regions, 4 forest sections, 11 forest zones, and 10 forest subzones, including both the environmental and ecological characteristics and major successional sequences found within each forest subzone are described.

**Vehicle coastdown resistance analysis under windy and grade-variable conditions**

by B.A.P. Remenda, A.E. Krause and P.B. Hertz. Ottawa : Transport Canada, 1989. 11 p. : ill. Bibliogr.  
MICROLOG 90-04788 1 fiche

Development of a testing and analysis method for the evaluation of the aerodynamic and rolling resistance coefficients of a vehicle, under windy weather conditions and on a road with some variation in grade. Over 100 coastdown runs were collected and analyzed, and the aerodynamic and rolling resistance functions were calculated in conditions from 0 to over 30 degrees yaw. In addition, the effects of vehicle centripetal force due to road curvature in the vertical plane, lift force, velocity dependencies of rolling circumference and rolling resistance are discussed. The data analysis method developed uses a computer-based simulation/optimization technique which is described.

**Vehicle crew scheduling to complete specific task and bulk-tasks at depots**

by J.A. Ferland and S. Taillefer. Montreal : Université de Montréal, Centre de recherche sur les transports, 1989. 24 p. Bibliogr. (Publication ; no. 647) (Publication ; no. 681) MICROLOG 90-01411 1 fiche

This paper considers a vehicle crew scheduling problem in which there are several depots with each operator based at one of the depots. The workday of each operator is specified for specific tasks and a share of the bulk-task of the depot. The model is formulated as a set-covering problem with additional constraints. Numerical results are reported for problems in

the context of postal vehicle crew scheduling.

**Vermiculite in the Stanleyville area, Lanark County, Eastern Ontario**

by A. MacKinnon, P.W. Kingston and J.S. Springer. Toronto : Ministry of Northern Development and Mines, Mines and Minerals Division, 1989. xix, 87 p. : ill., fold. maps. (Ontario Geological Survey open file report ; 5711) MICROLOG 90-00866 2 fiche

The eastern Ontario hydrobiotite/vermiculite occurrences, although extensively tested in the 1960s as aggregate for gypsum plaster, remain largely undeveloped. Since good domestic market opportunities now exist, this project was initiated to investigate the occurrences in the Stanleyville-Pike Lake area near Perth, Ontario. This involved geologic mapping of the area and known vermiculite occurrences, and separation and beneficiation tests on several prospects. In addition, the report provides a brief discussion of world resources, the U.S. and Canadian vermiculite industries, and developments in processing and product application.

### The Vertebrates of British Columbia : scientific and English names

edited by Robert A. Cannings and Andrew P. Harcombe ; authors Alex E. Peden...et al. Victoria : Ministry of Tourism, Recreation and Culture, Royal British Columbia Museum ; Ministry of Environment, Wildlife Branch, 1990. 110 p. Bibliogr. (Heritage record ; no. 20) (Wildlife report ; R-24) ISSN 0701-9556 ISBN 0-7718-8907-0  
MICROLOG 90-04421 2 fiche

This publication includes the names of all vertebrate species known to occur, or to have occurred, in the province of B.C. and the adjacent Pacific Ocean to the 200 mile limit during historical times. No distinction is made between resident and migratory species or between those that occur regularly, casually or accidentally. Species introduced by man are indicated; this includes species introduced directly into B.C. and those that entered the province from introductions elsewhere in North America. Names for selected domestic species are listed separately. The scientific and the English names are given for taxa (class, order, family and species). English (common) names are provided for each species. For each species the scientific species name and its author are given. Lists are divided into marine fishes, freshwater fishes, amphibians, reptiles, birds and mammals. Indices are given for English names, scientific names and species codes.

### Vieillir ensemble : une enquête sur les attitudes face au vieillissement dans le contexte multiculturel de l'Ontario

Conseil consultatif de l'Ontario sur l'âge d'or. Toronto : le Conseil, 1989. xv, 144 p. Bibliogr. L'éd. anglaise (Aging together...) sur la même fiche. ISBN 0-7729-9777-5 MICROLOG 90-00235 4 fiche

Présente une enquête sur les attitudes envers le vieillissement chez les personnes âgées des groupes multiculturels en Ontario, dont certaines sont nées au Canada, mais chez qui on compte un nombre croissant de personne qui sont nées dans d'autres pays. On y étudie les lois fédérales et provinciales qui régissent les droits humains et le multiculturalisme. On se penche également sur la politique dans ces domaines et sur la documentation courante ayant trait au vieillissement et à l'ethnicité. Finalement, on identifie les questions suivantes : l'immigration, les communications, l'accès aux services, particulièrement dans le domaine de la santé,

le logement, les soins prolongés, et les besoins des aînés en ce qui a trait au revenu. ON PR SA

### Vieillir-en toute liberté : rapport

Québec (Province). Comité sur les abus exercés à l'endroit des personnes âgées. Québec : Gouvernement du Québec, Ministère de la santé et des services sociaux, Direction des communications, 1989. 131 p. Bibliogr. ISBN 2-550-20007-1 MICROLOG 90-03643 2 fiche

Le premier chapitre du document rappelle les données démographiques qui permettent de tracer un portrait de la situation des personnes âgées et de comprendre en quoi l'âge et les conditions socio-économiques peuvent être sources de vulnérabilité. Les deux chapitres suivants décrivent les situations vécues par les personnes âgées selon leur lieu de vie : la communauté ou les divers milieux d'hébergement. Les trois derniers chapitres présentent les conclusions et les recommandations.

### Le VIH et le SIDA en milieu de travail

Toronto : Commissaire à l'information et à la protection de la vie privée/Ontario, 1989. 24, 21 p. Bilingual (HIV/AIDS in the workplace). ISBN 0-7729-6378-9 MICROLOG 90-03234 1 fiche

L'apparition de l'infection par le VIH et du sida, cette maladie mortelle pour laquelle il n'existe aucun vaccin ni aucun traitement connu, a soulevé tout un éventail de questions graves sur le plan de la déontologie, du droit, de la médecine et de la vie en société. Ce rapport s'intéresse avant tout aux questions soulevées par le VIH et le sida sur le plan de la protection de la vie privée et, particulièrement, aux conséquences de la Loi de 1987 sur l'accès à l'information et la protection de la vie privée sur le traitement des renseignements personnels touchant au VIH ou au sida dans les milieux de travail.

### Ville de Newcastle : étude de santé

par B.C. Balram. Fredericton : Santé et services communautaires Nouveau-Brunswick, 1990. vii, 75, vii, 78 p. Bibliogr. Bilingual (Town of Newcastle : health...). CSI 45125.202. MICROLOG 90-06560 2 fiche

Ce document présente la version finale de l'étude de santé de la ville de Newcastle. Elle vise principalement à valider les statistiques sur les taux de cancer de la ville de Newcastle, et à évaluer l'état de santé de ses habitants. Le rapport contient également des recommandations tirées des résultats de cette étude qui s'est déroulée en deux étapes : la première a permis de valider les statistiques sur le cancer, et la deuxième d'évaluer l'état de santé de ses habitants. Les données sur l'état de santé des habitants ont été rassemblées par le biais d'un questionnaire rempli par 604 (88%) des 684 foyers sélectionnés.

### Vocabulaire de l'intelligence artificielle

par N. Lazure. Ottawa : Bureau des traductions, Direction générale de la terminologie et des services linguistiques, 1988. 2 v. Bibliogr. (Bulletin de terminologie ; 184) *Bilingue (Artificial intelligence vocabulary)*. Contient: Vol. I : Vocabulaire anglais-français -- vol. II : Lexique français-anglais. ISBN 0-660-54136-X MICROLOG 90-01628 13 fiche

Les techniques d'intelligence artificielles sont utilisées, surtout par le truchement des systèmes experts, dans de nombreux secteurs d'activité, par exemple la médecine, l'art militaire, l'aviation, la géologie, la finance et les transports. Ce vocabulaire comprend environ 12 000 termes ou expressions, dont 3 700 s'accompagnent d'une définition. La recherche terminologique a porté principalement sur les sous-domaines suivants: la représentation des connaissances, la démonstration de théorèmes, la reconnaissance des formes, la psychologie cognitive, l'informaticque, le traitement du langage naturel, la génération automatique de programmes, la résolution de problèmes, le traitement des images, les systèmes experts, la reconnaissance de la parole, la modélisation, la vision artificielle, la traduction automatique ou assistée par ordinateur, l'apprentissage, le dialogue homme-machine et, enfin, la logique et la linguistique appliquées à l'intelligence artificielle. La robotique est souvent considérée comme un sous-domaine de l'intelligence artificielle; pour des raisons d'ordre pratique, toutefois, les termes s'y rapportant ont été laissés de côté.

### La Voie de la promotion de la santé et de la prévention des maladies

par M. Terris. S.I. : Secrétariat des conférences intergouvernementales canadienne, 1989. 23, 16 p. Bibliogr. *Bilingue (The Road ahead for health...)*. Exposé au Colloque national sur la promotion de la santé et la prévention des maladies MICROLOG 90-00134 1 fiche

Ce document montre que l'erreur la plus grave que traduisent les politiques publiques actuelles en matière de santé, partout sur la planète, soit autant au Canada que dans tous les autres pays, est de présumer qu'en établissant un régime national de soins médicaux on crée un programme national de santé. Il est indispensable que les gouvernements prennent conscience qu'un programme national de santé véritablement efficace doit faire entrer en ligne de compte tous les facteurs qui influent sur la santé. Ces facteurs comportent trois éléments: le niveau de vie, la prévention, et les soins médicaux. Les gouvernements doivent également savoir que les soins médicaux sont l'élément de base le moins important du programme national de santé.

### Volatile Organic Compounds Monitoring Network, Quality Assurance Plan : report

Ontario. Special Studies and Research

Management Unit. Toronto : Environment Ontario, 1990. 59 p. Bibliogr.  
MICROLOG 90-05560 1 fiche

Over the past few years, methods have been developed for measuring a number of volatile organic compounds in ambient air. The finalized measurement method is now being incorporated into a provincial network which will determine quantitatively ambient air levels of volatile organic compounds at a number of urban sites in Ontario. Several background or non-urban sites are incorporated for comparison purposes. Inherent in ambient air monitoring network operations is the commitment to ensure that all data are scientifically valid, defensible, thoroughly documented and reported with quality indicators. To achieve this goal a quality assurance program was integrated into the network operations. This document describes the quality assurance program, the components of the plan, its organization, and the network operations in the field and the laboratory, and in data management, training and upgrading, corrective action, documentation, system and performance audits and reporting.

#### Wastage at sea of American plaice *Hippoglossoides platessoides* (Fabricius) in the southern Gulf of St. Lawrence fishery in the 1970's

by R.G. Halliday, D.E. Hay and K.I. Metuzals. Dartmouth, N.S. : Dept. of Fisheries and Oceans, Bedford Institute of Oceanography, Biological Sciences Branch, Marine Fish Division, 1989. vii, 36 p. : ill. Bibliogr. (Canadian technical report of fisheries and aquatic sciences ; no. 1663) ISSN 0706-6457  
MICROLOG 90-00375 1 fiche

The southern Gulf of St. Lawrence supports a large population of American plaice, which form a biologically discrete stock. Otter trawling was introduced in this groundfish fishery in 1947 and expanded rapidly. This fishery captured many plaice below market size, which were then discarded at sea. In 1976, a field project was conducted to obtain estimates of plaice discards in the groundfish fishery in this area. Sampling was designed to include different areas and the 2 main vessel types employed, which were small otter trawlers (less than 150 gross registered tons) and seiners, to examine the discards. The study mainly quantified fishery removals from the stock as a basis for describing the impact of fishing on population dynamics. This report describes the results of the 1976 project and also presents, for comparative purposes, discard data collected on a much smaller scale in 1972 and 1979.

MICROLOG 90-02868 2 fiche

A waste allocation workshop was held in January 1988, with a follow-up session in September 1988. The workshops were held to manipulate data on waste quantities broken down by source which could require off-site treatment and disposal under different regulatory scenarios for 1992 and 1997 into a useful form for the 'alternatives to' evaluation. Alternative destinations were categorized into 5 groups containing both existing and possible future destinations. Different ranges of allocations are considered based on different market conditions.

#### Waste in storage in Ontario

submitted to Canviro Consultants Ltd. ; contracted by the Ontario Waste Management Corporation. Toronto : VHB Research & Consulting Inc., 1988. iv, 38 p. Bibliogr.  
MICROLOG 90-02869 1 fiche

Estimation of the quantities of waste in storage in Ontario, conducted by an analysis of information obtained from a modified version of the generator registration database on wastes

in storage in Ontario, an analysis of information obtained for interviews with the manufacturing sector in Ontario carried out in 1984 and 1986, and confirmation of the data obtained through a telephone survey. The results of the survey were used to re-assess the quantity of waste in long term storage in the province.

### Water chemistry of some lakes and channels in the Mackenzie Delta and on the Tuktoyaktuk Peninsula, N.W.T., 1985

by C. Anema...et al. Winnipeg : Dept. of Fisheries and Oceans, Central and Arctic Region, 1990. vii, 73 p. : ill., maps. Bibliogr. (Canadian data report of fisheries and aquatic sciences ; no. 726) *This is the 28th data report from the Central and Arctic Region, Winnipeg.* ISSN 0706-6465  
MICROLOG 90-05444 1 fiche

Four species of whitefish (broad whitefish, lake whitefish, arctic cisco, and least cisco) make up a major portion of fish catches in the nearshore southern Beaufort Sea and Mackenzie Delta. All four migrate upstream into the Mackenzie River to spawn. This study was undertaken to examine the limnology of lakes used by corregonids of the Mackenzie Delta and southern Beaufort Sea. A variety of studies were undertaken simultaneously. This report gives biweekly chemistry data for 5 lakes and Kukuluk Bay on the Tuktoyaktuk Peninsula and 4 lakes and 2 channels in the Mackenzie Delta for the open water season of 1985. Several locations that were sampled only once are also included. Time variations of a set of chemical and water quality variables are discussed in detail.

### Water disinfection by solar radiation : assessment and application

by A. Acra. Ottawa : International Development Research Centre, 1990. xi, 74 p. : ill. Bibliogr. (Technical study ; 66e) ISBN 0-88936-555-5  
MICROLOG 90-03835 1 fiche (Available on fiche only)

Publication providing basic information on solar energy, especially its ultraviolet (UV) component. Aspects such as the transmission of solar radiation through the atmosphere and different media (glass, water, plastics), its world distribution and the experimental monitoring of UV radiation in Beirut (Lebanon) are discussed. The main water disinfection methods are reviewed and continuous flow solar systems are explained. These were tested on two types of pilot plants (solar reactors), based on the biocidal characteristics of either solar

energy alone or halogens in combination with solar radiation (halosol system). The experimental results are discussed in detail, covering the kinetics of the processes, design of the reactors, and their performance in bacterial survival and solar dechlorination.

### Water quality at Stevens Island and Indian Bay, Shoal Lake, Ontario, June 29 and July 5, 1989

by A.E. Beck. Winnipeg : Manitoba Environment and Workplace Safety and Health, 1989. iii, 30 p. : maps. (Water Standards and Studies report ; no. 89-5)  
MICROLOG 90-03432 1 fiche

Consolidated Professor Mines Ltd. is in the process of developing the Duport Gold property, with surface structures and the associated ore concentrator to be located on Stevens Island. This development has aroused concerns about the protection of the water supply for the City of Winnipeg since that city draws its water supply from Indian Bay of Shoal Lake. Indian Bay straddles the Manitoba-Ontario border while most of the remaining surface area of Shoal Lake falls entirely within Ontario. Stevens Island, located centrally on Shoal Lake, is approximately 12 km, by water, from the City of Winnipeg water intake structure. A multi-jurisdictional inspection of the mine development was conducted on June 29, 1989, involving the entire area of Stevens Island that had been developed. This report provides observations on general conditions at the Stevens Island site as well as analytical results of water and sediment sampling. Results of the water sampling conducted near Stevens Island and at Indian Bay on July 5, 1989 are also presented.

**Water Quality Control Network : proceedings of the meeting**

compiled and edited by P. Payment and W.A. Sanchez. Ottawa : International Development Research Centre, 1989. 26 p. (Manuscript report ; 248e)  
MICROLOG 90-03211 1 fiche (Available on fiche only)

Water quality remains an important issue for developing countries, but the limited availability of funds as well as of technical facilities and trained staff seriously limits testing of water samples from areas that are not within range of large urban centres. In order to provide developing countries and remote areas of industrialized countries with inexpensive and simple field tests for assessing their drinking water quality, researchers from several countries were involved in comparing the suitability of various alternative tests for laboratory and field use under local conditions. The presence/absence, the H2S paper strip and the coliphage tests were compared to the standard tests normally performed for water quality testing. The study group suggested further research in these three tests and the initiation of some field evaluation of the last two tests.

**Water quality evaluation of Buffalo Lake stabilization project**

Edmonton : Alberta Environment, Water Resources Management Service, Planning Division, 1989. v, 27 p. : ill. Bibliogr.  
MICROLOG 90-00262 1 fiche

Buffalo Lake is a large, shallow, moderately saline lake in which algal blooms are rare because of the inhibiting effect of high salinity on algal production. The lake is a popular recreation area, but lake level fluctuations have reduced its recreational attractiveness and hampered orderly development of the shore line. A study to divert water to stabilize the lake level was concluded in 1982, but no work was done. A third phase of studies was conducted in 1983 to further investigate stabilization and to quantify the extent to which nuisance aquatic algal and macrophyte growth might develop. Renewed interest in the Buffalo Lake stabilization project at present warrants a re-examination of past water quality studies and an evaluation of information collected since 1984. This report briefly reviews the Phase III water quality summaries and examines predictions made in earlier reports in light of new data. Emphasis is placed on predicting project impacts on Buffalo Lake phosphorus, salinity and algal biomass levels.

**Water quality in the Wapiti-Smoky River system downstream of the Procter and Gamble Pulp Mill, 1983**

by L.R. Noton...et al. Edmonton : Alberta Environment, Environmental Assessment Division, Environmental Quality Monitoring Branch, 1989. x, 113 p. : ill. Bibliogr.  
MICROLOG 90-00274 2 fiche

Procter and Gamble Cellulose Ltd. operates a bleached kraft pulp mill near Grande Prairie, which discharges effluent to the Wapiti River. The mill began operation in 1973, but not until the late 1970s were there any public complaints about water quality in the Smoky River, into which the Wapiti drains. Since little data were available for the Smoky, a water quality study was carried out in 1983 to assess the impact of the pulp mill and to augment the data base and understanding of the Smoky River system. The lower Wapiti, the Smoky River, and the Peace River near the Smoky confluence were sampled in March, May, September and November 1983, over a range of river flows. A comprehensive list of physical, chemical, and biotic parameters were

included and mill effluents were sampled concurrently.

**Waterfront transportation in the context of regional transportation : background and issues : a discussion paper**

by N.A. Irwin and F.S. Foreman. Toronto : Royal Commission on the Future of the Toronto Waterfront, 1990. 136 p. : maps. Bibliogr. (Report ; 9) ISBN 0-662-17730-4  
MICROLOG 90-04352 2 fiche

This discussion paper starts with a description of transportation in the Greater Toronto Area

(GTA) and then describes and discusses transportation in the Toronto waterfront area, in the context of the larger system. At each level, that of the GTA and that of the waterfront, it provides a brief historical perspective followed by a description of the existing transportation system, recent transportation demand/supply trends, and outlooks. Possible transportation initiatives and current proposals are also described briefly, as well as the Port of Toronto. The paper raises a number of key questions for consideration during the forthcoming hearings. Information is taken from earlier publications by the Commission, as well as a large number of additional reports and proposals by public and private agencies.

### Wetland management in the settled area of Alberta : background for policy development

developed by the Alberta Water Resources Commission ; in cooperation with the provincial departments of Agriculture...et al. Edmonton : The Commission, 1990. v, 56 p. : ill. Bibliogr. ISBN 0-7732-0424-5 MICROLOG 90-07257 1 fiche

Responsibility for management of wetland resources in the settled areas of Alberta is divided among several provincial government departments, leading to the need for an integrated wetlands management policy to address the problem of wetland loss and to provide consistent direction. This report contains background information considered during the development of a draft wetlands policy. The report includes a discussion of the different types of wetlands and the value of wetland resources; wetland management concerns and guiding principles; a review and evaluation of government legislation, policies and programs that affect wetlands, as well as those of nongovernment organizations; management objectives for wetland resources, and policies and programs in other jurisdictions. Finally, the report examines wetland management policy options and makes recommendations for an integrated wetland policy. The draft policy is included.

### Wetlands are not wastelands : interim report

by W.K. Bond...et al. Ottawa : Canadian Wildlife Service ; Wildlife Habitat Canada, 1988. iii, 16 p. Bibliogr. French ed. (Les Terres humides...) on the same fiche. MICROLOG 90-06359 1 fiche

This multi-year study between the Canadian Wildlife Service and Wildlife Habitat Canada intends to demonstrate that wetlands are not wastelands. Current methods of evaluating many resources inadequately portray their true environmental and economic value to society

based on the functions they support. This is particularly true of wetlands. It is proposed to develop and evaluate alternative procedures and evaluation methodologies which more adequately portray the true values of wetland resources. This interim report describes the progress of the project to date.

### Wetlands habitat management through nutrient enrichment

by R. Melanson and F. Payne. Halifax : Dept. of Lands and Forests, 1988. viii, 115 p. : ill., maps. Bibliogr. (Occasional paper ; no. 1) Fold. maps not filmed. MICROLOG 90-00530 2 fiche

The vast majority of freshwater wetlands in Nova Scotia are oligotrophic and do not support a diverse or abundant floral and faunal community. During the summer of 1984 a nutrient enrichment project was undertaken in an attempt to increase the food source for wetlands related wildlife and consequently increase wildlife usage on a 4.9 ha impoundment in East Bay, Jordan Lake, Nova Scotia. Nitrogen and phosphorus levels in the impoundment were elevated through the addition of urea and triple-super-phosphate fertilizers from 1985-87. The effects of fertilization were evaluated through the monitoring of water chemistry, macrophyte growth and diversity, aquatic macroinvertebrate biomass and diversity and wetlands related wildlife use.

### Wetlands planning policy statement : implementation guidelines

Ontario. Ministry of Natural Resources. Toronto : The Ministry, 1989. 30, 30 p. Bilingual (Déclaration de principes...). ISBN 0-7729-5134-4 MICROLOG 90-03260 1 fiche

This policy statement applies to provincially significant wetlands (Class I and II wetlands). It may be applied to Class III (regionally significant wetlands) and Class IV to VII (locally significant wetlands) as deemed appropriate by regional and local municipalities. The document identifies public and other agencies with involvement and variation in local conditions as a result of jurisdiction, characteristics of the wetland, technical information available, nature of the proposed development, and whether the wetland is in Northern or Southern Ontario. Implementation of the provincial policies through the Planning Act is discussed, along with methods of evaluation of the strategy proposed.

### What's happening in the -- Utilization Section at Research Division

by J.M. Bell. Toronto : Ontario Hydro, Research Division, 1988. 29 p. : ill. (Report ; no. 88-157-K) MICROLOG 90-01729 1 fiche

Overview of the major activities in the Utilization Section at Research Division of Ontario Hydro. The system develops new applications of electricity, improves the efficiency and effectiveness of existing equipment, and determines the performance characteristics of new products. Activities are categorized by end user (industrial, residential, commercial), describing the goals, work program, deliverables, and future impacts of each project. Work in the industrial sector includes technology transfer, drying and concentrating processes, surface treatments, and materials and automation. Work in the residential and commercial sectors includes burner assisted, advanced cold climate and ground source heat pumps, water heating, heat recovery and thermal storage and building science. In addition, residential sector projects include demand solutions for electric heating and appliance and heat pump standards.

**Wide Area Vehicle Monitoring (WAVM) system development in Ontario and the emerging worldwide competition**

by J. Tsai. Downsview, Ont. : Ministry of Transportation, Transportation Technology and

Energy Branch, 1989. iv, 20 p. : ill. Bibliogr. Presented at: Goods Movement Communications -- the electronic age session MICROLOG 90-00374 1 fiche

The wide area vehicle monitoring (WAVM) system is an application of satellite communications and navigation technologies to provide real-time truck location and identification information and 2-way message communication services between equipped trucks and trucking company base stations. Many trucking companies consider the WAVM system an important missing link between their computerized fleet dispatch system and their trucks on the road. This paper describes WAVM development and application in Ontario, and reviews the emerging worldwide competition in the WAVM technology and market.

**Wild rice in Canada**

by S.G. Aiken...et al. : published by NC Press Limited ; in cooperation with Agriculture Canada. Toronto : NC Press Limited ; Ottawa : Agriculture Canada, 1988. 130 p. : ill., maps. Bibliogr. French edition (Le Riz sauvage...) : 90-03214/2. ISBN 1-55021-027-0  
MICROLOG 90-04032 2 fiche

Wild rice is an annual aquatic grass that grows in shallow lakes and rivers throughout eastern and north central North America. It is best known as a culinary delicacy and as an export product, in addition to being a visible component of Indian culture. In the U.S., it is grown in paddies as a cultivated crop. This report describes the appearance of the wild rice plant and gives a taxonomic review of the genus, species and varieties; the habitat and the diseases and pests affecting it; methods of harvesting and processing the grain and the management of natural stands; and the wild rice industry, including government involvement, the impact of the paddy culture on the industry, and industry quality control.

**Williston Reservoir raising : environmental overview -- Rev.**

Vancouver, B.C. : B.C. Hydro, System Operations and Maintenance Division, Environmental Services, 1988. viii, 109 p. : ill., maps. Bibliogr. MICROLOG 90-01770 2 fiche

This preliminary environmental overview report was prepared by B.C. Hydro in June 1987 and revised in July 1988 as an initial assessment of the possible 1.5 m (5 ft.) raising of the Williston Reservoir maximum normal level. The environmental overview study and the associated engineering and property studies were undertaken to provide information for a decision on whether to initiate more detailed studies. Overview studies are based mainly on available reports, mapping and field data, supplemented by limited site reconnaissance and, in this case, input from key agencies and groups. The lack of adequate mapping of areas which could be affected reservoir raising did not permit definitive conclusion to be reached. It is planned to do this mapping

over the next year to complete the overview assessment. This document covers the impact assessment of socio-economic factors, forestry, reservoir clearing, heritage, recreation, aquatic resources, and wildlife. Further studies in each of these areas are also included.

#### Wind shear feasibility study : final report

prepared for the Transportation Development Centre ; by Ivor C. Barnard. Ste-Anne-de-Bellevue, Que. : Spar Aerospace Ltd., 1989. xxxvi, 207 p. : ill. Bibliogr. MICROLOG 90-01812 3 fiche

Recent wind shear related incidents in and around airports have caused an increased awareness within the air transportation community of their hazards. A system to detect low level wind shear conditions in and around Canadian airports would need to detect and locate, with a high degree of confidence, events out to 15 km from the centre of the airport and to provide sufficient warning for pilots to operate their aircraft safely. This report presents a thorough meteorological review of wind shear phenomena, including the important parameters of the physical nature of microbursts. Various technologies/systems are examined for their suitability to the wind shear detection problem, the most promising of which are ground-based radar and anemometers. These sensors are assessed in depth and conceptual system designs and the estimated order of magnitude costs are outlined.

#### The Windy postman problem on general graphs

by M. Gendreau, G. Laporte and Y. Zhao. Montreal : Université de Montréal, Centre de recherche sur les transports, 1990. 10 p. Bibliogr. (Publication ; no. 698) MICROLOG 90-06428 1 fiche

The Windy Postman Problem consists of determining a least cost oriented tour covering all edges of a connected undirected graph, when the cost of traversing an edge depends on the direction of travel. This document suggests new integer linear programming formulations for this problem, and presents alternative solution procedures derived from them.

#### Winnipeg victim impact statement pilot project : final report

prepared by T. Clarke ; for the Manitoba Victim/Witness Advisory Board. Ottawa : Dept. of Justice, 1988. 186 p. : ill. MICROLOG 90-00440 3 fiche

Presents a program where the effects of the crime on the victim can, in a systematic manner, be available to the court at the time of sentencing. It also offers ways in which the perception of victims and their role in the court process could be improved. Finally, it determines the feasibility of developing a program that would give all victims of crime the opportunity to provide information to the court on the impact of the crime.

#### Winter creel surveys on Inner Long Point Bay, Lake Erie, 1978-88

by A.J. Timmerman. Port Dover, Ont. : Ministry of Natural Resources, Lake Erie Fisheries Assessment Unit, 1988. v, 29 p. : ill., maps. Bibliogr. (Report ; 1988-5) ISBN 0-7729-4137-8 MICROLOG 90-01408 1 fiche

Data concerning the winter ice-fishery on Inner Long Point Bay are available since 1959 but estimates of total effort and harvest are available only since 1978. This report documents methods and results of winter creel surveys on the Bay from 1978-88. The creel surveys quantified the angling catch and harvest particularly of yellow perch, estimated angling effort and angling success rates, monitored the age and length composition of the yellow perch harvest, and determined angler residency.

### The Winter sport fisheries of Big Clear, Big Rideau, Big Salmon, Charleston and Devil lakes, 1984

by R.R. Claytor, A. Mathers and N.G. MacLean. Sharbot Lake, Ont. : Ministry of Natural Resources, Rideau Lakes Fisheries Assessment Unit, 1985. iv, 74 p. : ill., maps. (Report ; no. 13) ISSN 0828-1564 ISBN 0-7729-0660-2  
MICROLOG 90-05968 1 fiche

In 1981, the Rideau Lakes Fisheries Assessment Unit initiated a long-term creel census program to assess the sport fisheries of Big Clear, Big Rideau, Big Salmon, Charleston, and Devil lakes during the winter and summer lake trout open seasons. The program is designed to provide both qualitative and quantitative sport fishery data for trend-through-time analysis. Information to be gathered includes estimates of catch, harvest, effort, and angler success rates, length, weight, and age structures of the harvest; contribution of hatchery origin fish to the harvest; fishing methods; and user-group characteristics. This report summarizes the results of the 1984 winter creel census and examines trends in light of several indices of overexploitation. A summer creel census on these 5 lakes is conducted only during odd-numbered years.

### Witches' broom revisited

by G. Estabrooks. S.I. : Canadian Forestry Service - Maritimes, 1990. 4 p. (Technical note ; no. 224) ISSN 0820-8107  
MICROLOG 90-03130 1 fiche

This note continues the discussion on yellow witches' broom taken up in an earlier technical note. The note describes the behaviour of the fungus and an experiment begun in 1986 at an affected plantation near Fredricton, New Brunswick. Each of the 500 trees in the plantation was examined for broom rust and, as infections were found, the age and location of infections were recorded and all the buds and/or shoot growth were cut off. The experiment continued for 5 years and the results of it led to the recommendations made in this note.

### Women and labour market poverty

by Morley Gunderson and Leon Muszynski ; with Jennifer Keck. Ottawa : Canadian Advisory Council on the Status of Women, 1990. i, 254 p. : ill. Bibliogr. French ed. (*Vivre ou survivre? Les Femmes...*) : 90-06114/4. ISBN 0-662-17366-X  
MICROLOG 90-06115 3 fiche

Women experience discrimination in pay and job opportunities and are segregated in low-paying occupations and industries. This document examines the problem of working poverty in Canada with a special focus on women. Although there is significant understanding of the nature of poverty in Canada, including women's poverty, there is not yet a clear account of the relationship between women's poverty and women's labour market experience. This document offers information to fill this void.

#### Worker productivity in merchantable thinning, shelterwood and remnant removal operations

Truro, N.S. : Dept. of Lands and Forests, 1989. 8 p. Bibliogr. (Forest research report ; no. 16)  
MICROLOG 90-02232 1 fiche

Over the past decade, silviculture activity in Nova Scotia has increased and funds available under cost-shared federal/provincial agreements have provided much of the incentive. Under these agreements, landowners, contractors and companies receive full or partial payment up to a maximum rate for the completion of a variety of silviculture operations including tree planting, cleaning, remnant removal and merchantable thinning treatments. To provide a basis for refining silviculture treatment assistance rates, a study was implemented in 1986/87 to collect and analyze productivity data on various manual stand improvement treatments. This report discusses the interim results of productivity studies conducted for "shortwood" merchantable thinning, shelterwood and remnant removal operations.

### World oil market projections, 1990-2005

by A.E. Reinsch and M.A. O'Reilly. Calgary, Alta. : Canadian Energy Research Institute, 1990. xxiv, 172 p. Bibliogr. (Study ; 34) CSI 99359.202. ISBN 0-920522-61-0  
MICROLOG 90-03744 3 fiche (Available on fiche only)

The global energy market responded to the uncertainty of world oil supply and prices through the pursuit of increased energy efficiency and multiple energy sourcing. The evolution of the world oil market and the likely path of crude oil prices continue to play a key role in shaping domestic energy policy and energy sector planning. This report is the 2nd in a series of research studies designed to monitor developments in the world oil market, to assess the likely impact of key uncertainties affecting the market, and to provide a reference crude oil price path upon which industry and government can base their investment decisions and policy prescriptions. The centrepiece of the research effort is the CERI world oil market model, an integrated supply-demand model capable of generating consistent projections of world oil prices or OPEC production levels under a wide range of plausible assumptions regarding world economic growth, product demand response to oil price and income changes, and ultimate potential oil reserves in the non-OPEC oil producing countries.

**Year-round accessibility of the Beaufort Sea from the east via the southern route of the North-West Passage, phase I : final report, ice climatology and navigation assessment**

presented to Executive Services Branch, Marine Corps, Canadian Coast Guard. Ottawa : Canarctic Shipping Company Limited, 1989. vi, 67 p. : maps. Bibliogr. MICROLOG 90-06532 1 fiche

Phase I of this program investigated aspects of the historical ice climatology and navigational environment of the southern route of the Northwest Passage as they impact on potential year-round navigation by deep-draft icebreaking tankers. This report presents an assessment of the charted bathymetry along the southern route and an operational review of the location of aids to navigation currently maintained along the deep-draft corridor; investigates the transit

experience of vessels using this route; and presents an ice climatology analysis of historical and contemporary SAR data collected from 1986-89. A complete set of navigation chart reproductions for the route are included. CA NO PS SC TR

**Yearly traffic volume report, 1988 -- 20th ed.**

by V. Perrin. Halifax : Halifax Engineering and Works Dept., Traffic Engineering Division, 1988. 177 p. : maps. CSI 89175.002. MICROLOG 90-03590 2 fiche

**Yes, but are they learning anything? Interim report no. 3 from the Kingston Regional Pilot Test Centre : schools, computers, and learning project**

by J. Blackstock and L. Miller. Toronto : Ministry of Education, 1989. vii, 66 p. : ill. Bibliogr. ISSN 0843-5111 ISBN 0-7729-5216-7 MICROLOG 90-06659 1 fiche

The project was designed to investigate the mutual adaptation of new information technology in an elementary school setting. It involved five principal researchers, each focusing on a different area of interest and expertise. The component of the longitudinal investigation described in this report included the following research goals: the study of a group of Grade 1 children, and their use of computers, as they progressed through three years of schooling; the study of one teacher using computers over a three-year period; the study of the computer's role in fostering literacy; the study of the transfer of learning; the study of one particular software package, 'the puzzler', and a demonstration of its exemplary use in the classroom. ### Yukon fish and effects of causeways

by W.B. Griffiths...et al. Ottawa : Indian and Northern Affairs Canada, Northern Affairs Program, 1988. xix, 124 p. : ill., maps. Bibliogr. (Environmental studies ; no. 57) ISBN 0-662-16578-0  
MICROLOG 90-04620 2 fiche

The extensive exploratory drilling activities in the nearshore waters of the Canadian Beaufort Sea and in the Mackenzie Delta region have resulted in a variety of proposed developments for shore-based facilities, usually incorporating a solid-fill causeway in conjunction with either dredged channels or solid-fill breakwaters. There is currently insufficient biological and physical data from the Yukon coast to allow for a determination of the potential impacts of these structures on fish populations, although massive studies were done on 2 causeways in the Prudhoe Bay-Sagavanirktok Delta region of Alaska. This report summarizes the Alaskan information; assesses the likelihood that coastal structures along the Yukon would affect the anadromous fish populations using the area; and evaluates the data that are available from the Yukon coast and their usefulness in addressing the relevant questions of development-related impacts. In addition, important data gaps are identified and recommended priorities for future studies are provided.

**Zirconium-refractory alloys**

by H.M. Skelly and C.F. Dixon. Ottawa : Canada Centre for Mineral and Energy Technology, Physical Metallurgy Research Laboratories, 1970. i, 21 p. : ill. Bibliogr. (Report ; PM-M 70-8)  
MICROLOG 90-04659 1 fiche

Investigation examining the possibility of improving the high-temperature properties of zirconium through dispersion strengthening by the addition of refractory compounds, particularly oxides, to zirconium by arc melting. To dispersion strengthen zirconium by this method, it is necessary for the refractory compound to dissolve in molten zirconium, then, on cooling, to precipitate as a fine dispersion of the refractory compound itself or of some stable compound formed by its reaction with zirconium. Thorium oxide (ThO<sub>2</sub>), because of its high stability, was selected for initial tests. Observations were also made on the effect of additions to zirconium of yttrium oxide (Y<sub>2</sub>O<sub>3</sub>), lanthanum oxide (La<sub>2</sub>O<sub>3</sub>), and cerium zirconate (Ce<sub>2</sub>O<sub>3</sub>.2ZrO<sub>2</sub>).

**Zones économiques spéciales, transport et industrialisation : la région du delta du Zhujiang, Chine**

par F. Soulard. Montréal : Université de Montréal, Centre de recherche sur les transports, 1989. 34 p. : cartes géogr. Bibliogr. (Publication ; no. 667)  
MICROLOG 90-01607 1 fiche

La province de Guangdong a la particularité d'avoir sur sa frontière méridionale deux colonies, Hong Kong et Macao, qui

réintégreront la République Populaire de Chine d'ici l'an 2 000. Les politiques chinoises de développement économique, qui coïncident avec le retour de l'emphase du développement industriel et manufacturier côtier, favorisent la mise en place de structures d'accueils pour l'investissement étranger: les zones économiques spéciales. Nous assistons donc à la formation de corridors de développement dans le polygone formé par les trois villes de Hong Kong, Guangzhou et Macao. L'étude consiste à démontrer l'hypothèse selon laquelle le développement d'axes de transport est lié au processus d'ouverture de la Chine au marché économique mondial, qu'il a un impact sur l'utilisation fonctionnelle des sols dans cette région, et qu'il affecte la mobilité de la population. L'analyse conclue sur les résultats des récentes politiques de développement et sur la relation entre la modification de l'utilisation des sols et les disparités régionales. Des voies de recherche sont aussi proposées.

**Zooplankton distribution and associated biological, physical and chemical data : Barkley Sound, Vancouver Island, May and June 1989 (MASS program)**

by J.R. Forbes...et al. Sidney, B.C. : Dept. of Fisheries and Oceans, Institute of Ocean Sciences, 1990. v, 109 p. : ill. Bibliogr. (Canadian data report of hydrography and ocean sciences ; no. 77) ISSN 0711-6721  
MICROLOG 90-04272 2 fiche

The marine survival of salmon (MASS) program is an interdisciplinary study aimed at understanding the relationships between physical and biological oceanographic events and the dispersal and survival of salmon during their early sea life. A major effort within the MASS program has been directed at processes within Barkley Sound, on the west coast of Vancouver Island. This report presents data collected during May and June 1989 surveying the distribution, abundance and size frequency of zooplankton and investigating the underlying biological and oceanographic processes controlling the zooplankton community. Maps of the surface distribution of zooplankton biomass by size category, salinity, temperature and chlorophyll fluorescence obtained by a flow-through sampling system are provided. The report also includes zooplankton abundance and size distribution determined from vertical net haul samples, together with biological, physical and chemical observations CTD casts and discrete water bottled samples.

Annual report 1988-89 : supplement. MICROLOG 90-04854 2 fiche

### Canada Employment and Immigration Advisory Council

Annual review 1988. MICROLOG 90-00748 1 fiche

Canada's single-industry communities : in search of a new partnership : a follow-up report based on an interdepartmental forum. MICROLOG 90-01932 3 fiche

Full employment is an achievable goal : a report. MICROLOG 90-05873 2 fiche

Regional unemployment in Canada : a nation out of balance : interim report. MICROLOG 90-02755 2 fiche

### Canada Institute for Scientific and Technical Information

About the structure and development of the gadid tooth : a contribution on the knowledge of the vasodentine. MICROLOG 90-02679 1 fiche

Acanthobdella peledina Grube, 1851. MICROLOG 90-00610 3 fiche

Accumulation of lysophosphatidylcholine and lysophosphatidylethanolamine in muscle of fresh skipjack. MICROLOG 90-00121 1 fiche

Acidified feed (silage) for fish : practical experiences. MICROLOG 90-01482 1 fiche

Activity and structural analysis fishing vessels 13 m.o.l. and over, 1984. MICROLOG 90-02089 1 fiche

The Activity of fishing vessels 13 m.o.l. and over in 1980. MICROLOG 90-02084 1 fiche

The Activity of fishing vessels 13 m.o.l. and over, 1982. MICROLOG 90-02090 1 fiche

The Activity of fishing vessels 40 feet and over, 1974-78. MICROLOG 90-02088 1 fiche

Activity studies of fishing vessels 8.0-12.9 m.o.l., 1985. MICROLOG 90-02114 1 fiche

Adaptations to bearing of eggs in some marine bivalves. MICROLOG 90-00078 1 fiche

Aerial census of grey seal pups in Iceland in 1982. MICROLOG 90-02729 1 fiche

Aeromonas salmonicida : causal agent of furunculosis in salmonids : identification and therapeutic experimentation in vitro. MICROLOG 90-00060 1 fiche

Air-blast freezing of herring : studies of necessary freezing time. MICROLOG 90-02725 1 fiche

Alternative peeling method for shrimps : Kroborg peeling machine and peeling of raw shrimps. MICROLOG 90-00581 1 fiche

American retail trade : buyers demands on suppliers of seafood. MICROLOG 90-01683 2 fiche

Analysis of diurnal vertical migrations of fish. MICROLOG 90-01525 1 fiche

Analysis of ensiled fish. MICROLOG 90-01500 1 fiche

Analysis of marine poisons and the applications. MICROLOG 90-01687 1 fiche

An Analysis of production-related key figures in the Norwegian fishing fleet, 1975-80. -- Rev. MICROLOG 90-02717 2 fiche

Analysis of the spectral characteristics of sound signals emitted by pinnipeds. MICROLOG 90-00053 1 fiche

Analysis of trace elements and chlorinated hydrocarbons in fish and common mussels from Hardanger Fjord and adjacent fjord areas in fall 1983 and spring 1984. MICROLOG 90-01555 1 fiche

Annual report 1988-89. MICROLOG 90-06335 1 fiche

Aquatic oligochaetes, I. family : branchiobdellidae. MICROLOG 90-00617 1 fiche

- The Arctic char as a farmed fish. MICROLOG 90-01508 1 fiche
- Argentinidae : *Argentina silus* : goldlachs. MICROLOG 90-00106 1 fiche
- The Assimilation number and its variations in the cultures and natural populations of marine phytoplankton. MICROLOG 90-00052 1 fiche
- The ATAIR : a survey, wreck-search and research vessel. MICROLOG 90-01553 1 fiche
- Barbourisia rufa Parr (Barbourisiidae, Cetomimiformes) and *Aphyonus gelatinosus* Gunther (Aphyonidae, Ophidiiformes) in the Indian Ocean. MICROLOG 90-02720 1 fiche
- Bibliography on Japanese short-necked clam *Ruditapes philippinarum* (Adams et Reeve, 1850) with annotations : data base on its biology and propagation and cultivation methods. MICROLOG 90-00597 2 fiche
- Binders in moist feeds for fish. MICROLOG 90-01505 1 fiche
- Bioengineering work in the Icelandic Fisheries Laboratories. MICROLOG 90-00619 1 fiche
- The Biological and social effects of fish farming on the Finnish coast. MICROLOG 90-02131 1 fiche
- Biological bases for the management of *Lessonia nigrescens phaeophyta, laminariales* in central Chile. MICROLOG 90-00682 1 fiche
- Biological changes in an alpine river, the Durance, below the Serre-Poncon Dam : species composition 18 and 25 years after filling the reservoir. MICROLOG 90-00065 1 fiche
- Biology and exploitation of the White Sea harp seal population. MICROLOG 90-00117 1 fiche
- Bleeding and gutting of cod. MICROLOG 90-02102 1 fiche
- Bleeding of cod on board factory trawlers. MICROLOG 90-01495 1 fiche
- Budget Committee for the fishing industry activity studies 1979-81 : fishing vessels in the size range 25-40 ft. 8-13 m. MICROLOG 90-02093 1 fiche
- Budget Committee for the fishing industry cost and earnings studies for fishing vessels between 8.0 and 12.9 m.o.l. operated year-round in 1984. MICROLOG 90-02092 1 fiche
- Budget Committee for the fishing industry cost and earnings studies, 1980 : vessels operated all year in the size range 8.0 - 12.9 m.o.l. MICROLOG 90-02083 1 fiche
- Budget Committee for the fishing industry cost and earnings studies, 1979 for vessels 25-39 feet registered length being operated year-round. MICROLOG 90-02091 1 fiche
- Cadmium uptake rates in euryhaline amphipods of the Elbe Estuary experiments with *Corophium volutator* (Pallas) (Amphipoda, Corophiidae). MICROLOG 90-00088 1 fiche
- Capability of kittiwake and thick-billed murre to utilize the energy in capelin and Arctic cod. MICROLOG 90-00589 1 fiche
- Causes for morphological variation among populations of herring *Clupea pallasii* in the far eastern waters. MICROLOG 90-00593 1 fiche
- The Causes of differences in the optical density of dentine layers in mammalian teeth. MICROLOG 90-01489 1 fiche
- Causes of the variability of the fecundity and age of sexual maturation in monocyclic fish, based on the example of *Oncorhynchus* salmon. MICROLOG 90-00114 1 fiche
- Changes in the distribution of the 'Yezo scallop' (*Pecten yessoensis*) and starfishes after mass planting of the scallop on the bottom of Vityaz Bay (Sea of Japan). MICROLOG 90-00108 1 fiche
- Characteristic of recent herring fishing conditions in Hokkaido. MICROLOG 90-00624 1 fiche
- Characteristics of rock grenadier accumulations and its behavioural response to trawls. MICROLOG 90-01475 1 fiche
- Characterization of estradiol-specific receptors : induction of the synthesis of vitellogenin and its mRNA in the liver of rainbow trout *Salmo gairdneri*. MICROLOG 90-02673 1 fiche
- The Chemical composition and nutritive value of the flesh of the Baleen whale. MICROLOG 90-01684 1 fiche
- Chemical properties of O-antigenic lipopolysaccharides isolated from 02 and 09, in particular, the separation and identification of 2-keto-3-deoxy-phosphoryl-octonate found in their strong acid-hydrolysates. MICROLOG 90-02085 1 fiche
- Colorimetric determination of sulfur dioxide in frozen shrimp. MICROLOG 90-01487 1 fiche
- Combination of biological water treatment and ozonization in a closed sea-water recycling system. MICROLOG 90-00001 2 fiche
- Commercially important grenadiers of the North Atlantic. MICROLOG 90-01469 1 fiche
- Comparison of the gonadal growth of six groups of sea urchins *Strongylocentrotus intermedius* reared by different quantities of Laminaria in polyethylene net cages on the shallow reef of Rumoi, Hokkaido. MICROLOG 90-02714 1 fiche
- Comparison of the growth of gynogenetic diploids with control diploids in hiramé *Paralichthys olivaceus* reared in the same tank. MICROLOG 90-00579 1 fiche
- Comparison of various methods of assessing water quality by means of Oligochaetes. MICROLOG 90-00102 1 fiche
- Consideration on drift and translocation of *Todarodes pacificus* larvae along the Pacific coast of Japan. MICROLOG 90-02678 1 fiche
- Containerization of sprats-trials : 1983 season. MICROLOG 90-00044 1 fiche
- Containers for the inshore fishery : Denmark's first fishing vessel fitted for container cargo. MICROLOG 90-02675 1 fiche
- Continuous records of DO contents by cruising in the coastal culture farms, I : relation between DO content and fish density in cages. MICROLOG 90-00072 1 fiche
- Continuous records of DO contents by cruising in the coastal culture farms, II : diffusion of suspended particles by feeding. MICROLOG 90-00073 1 fiche
- A Contribution to the systematics of the genus *Svetlovioa Oligochaeta, Tubificidae* from Lake Baikal. MICROLOG 90-02713 1 fiche
- Contributions to the systematics of the African Naididae *Oligochaeta*, III : studies on the qualitative and quantitative chaetotaxy of the Naididae. MICROLOG 90-02099 1 fiche
- Criteria for the definition of salinity of sea water by electroconductivity with correction for temperature and pressure. MICROLOG 90-01511 1 fiche
- Daily vertical migrations of some crustaceans in the Baltic Sea. MICROLOG 90-02110 1 fiche
- Data on seal distribution in the Greenland Sea depending on the position of the ice edge. MICROLOG 90-02704 1 fiche
- Deterioration of phospholipids of skipjack muscle during ice storage : mainly concerning to enzymatic hydrolysis of phosphatidylcholine. MICROLOG 90-00087 1 fiche
- Determination of okadaic acid by measuring 50% acid phosphatase activity inhibitory concentration (APIC 50). MICROLOG 90-01680 1 fiche
- Determination of sulfur dioxide in frozen peeled shrimp and dehydrated pineapple. MICROLOG 90-02672 1 fiche
- The Development of twins from overripe roe in the loach. MICROLOG 90-00082 1 fiche
- Diagnostic characteristics of subfamilies of the Tubificidae family *Oligochaeta*. MICROLOG 90-02715 1 fiche
- Diarrhetic shellfish poison examination using monoclonal antibodies. MICROLOG 90-00609 1 fiche
- Distribution of winter cod, 1969. MICROLOG 90-02701 1 fiche
- Distribution routes of some aquatic Oligochaeta. MICROLOG 90-00095 1 fiche
- Diurnal vertical migrations of cod and haddock. MICROLOG 90-01496 1 fiche
- Diurnal vertical migrations of cod and rock grenadier in the northwest Atlantic. MICROLOG 90-01474 1 fiche
- Dynamics of rainbow trout bacterial flora during *Yersinia ruckeri* induced enterosepticemia. MICROLOG 90-00061 1 fiche
- The Dynamics of the parasitic fauna of different forms of the Arctic char *Salvelinus alpinus* L. in the basin of Lake Azabach'e. MICROLOG 90-00112 1 fiche
- Early ontogenesis of the Yezo scallop : quantitative characteristics of metabolism in a laboratory culture. MICROLOG 90-01521 1 fiche
- Ecological studies on the pomfret *Brama japonica* Hilgendorf, II : a north-south distribution of the pomfret along longitude 175°30'E in late July. MICROLOG 90-00084 1 fiche
- Ecology and distribution of the oligochaete *Photamothrix hammoniensis* Mich. MICROLOG 90-00097 1 fiche
- Economic consequences of re-opening the herring fishery in the North Sea. MICROLOG 90-02750 1 fiche
- Economic management of fish plants : an investigation on the use and advantage of various management tools. MICROLOG 90-00132 1 fiche
- Ecophysiological studies on the acid tolerance of *Gammarus fossarum* (KOCH). MICROLOG 90-02690 1 fiche
- Edaphic and bathymetric segregation of the spider crab *Chionoecetes opilio* (O. Fabr.) in the southwestern Gulf of St. Lawrence. MICROLOG 90-00066 1 fiche
- The Effect of free fatty acids upon the mouse tests of diarrhetic shellfish poisons and the determination of the poison components. MICROLOG 90-01681 1 fiche
- Effect of isopropanol (IPA) preservation on industrial fish. MICROLOG 90-01556 1 fiche
- Effects of the food quality on the appearance of yellowtail *Streptococciosis*. MICROLOG 90-02126 1 fiche
- Electrofishing : fish reactions with neurophysiological explanations. MICROLOG 90-00612 1 fiche
- Electrophysiological study of reactions to direct current in the frog. MICROLOG 90-00611 1 fiche
- Embryonic development of rainbow trout *Salmo irideus* Gibb. from overripe eggs. MICROLOG 90-02697 1 fiche

- Emergence of chironomidae (Diptera) from continental water bodies of different climatic zones as a factor determining the food supply of fish. MICROLOG 90-01507 1 fiche
- Employment study of the fish farming industry, 1985. MICROLOG 90-02103 1 fiche

### Canadian Institute for International Peace and Security

Annual report 1989-90. MICROLOG 90-07046 1 fiche

Canada and international peace and security : a bibliography, covering materials from January 1985 through December 1989. MICROLOG 90-07051 5 fiche

Climate Change, Global Security and International Governance : a summary of proceedings of a conference on climate change and global security. MICROLOG 90-07058 1 fiche

Closing the gap : disarmament and development, the international debate. MICROLOG 90-04815 1 fiche

Compliance with confidence-building measures : from Helsinki to Stockholm. MICROLOG 90-03391 1 fiche

Conventional arms control and disarmament in Europe : Canadian objectives. MICROLOG 90-04225 1 fiche

The Cruise missile and cruise missile testing in Canada. MICROLOG 90-01978 1 fiche

Cyprus : visions for the future : a summary of conference and workshop proceedings, November 1988 to June 1989. MICROLOG 90-06510 2 fiche

The Guide to Canadian policies on arms control, disarmament, defence and conflict resolution, 1989. MICROLOG 90-00395 3 fiche

The Implications of the INF Treaty. MICROLOG 90-03382 1 fiche

The Military use of space. MICROLOG 90-01975 1 fiche

NATO : North Atlantic Treaty Organization. MICROLOG 90-01979 1 fiche

Non-proliferation treaty (NPT). MICROLOG 90-01582 1 fiche

NORAD : North American Aerospace Defence Command. MICROLOG 90-01980 1 fiche

Nuclear winter. MICROLOG 90-03252 1 fiche

Peace and security thesaurus. MICROLOG 90-07052 3 fiche

Peace in our time? A Canadian agenda into the 1990s. MICROLOG 90-02838 1 fiche

Peacekeeping. MICROLOG 90-01976 1 fiche

The Reduction of the Risk of War through Multilateral Means : a summary of conference proceedings. MICROLOG 90-01584 1 fiche

Regions of peace : oases of hope. MICROLOG 90-02911 1 fiche

Resolutions on arms control and disarmament : Canada's record at the UN. MICROLOG 90-03213 1 fiche

A Review of the Geneva negotiations, 1989-90. MICROLOG 90-07059 1 fiche

Security, arms control and defence : public attitudes in Canada : the 1989 CIIPS public opinion survey. MICROLOG 90-01925 2 fiche

United Nations and disarmament. MICROLOG 90-01581 1 fiche

The United Nations and international security. MICROLOG 90-06513 1 fiche

When does deterrence succeed and how do we know? MICROLOG 90-04464 2 fiche

### Canadian Institute of Guided Ground Transport

Development of an enforced stop algorithm for train applications, phase 1 : results. MICROLOG 90-04096 1 fiche

### Canadian Institute of Metalworking

Surface Crown Pillar Evaluation for Active and Abandoned Mines : proceedings of the international conference. MICROLOG 90-01318 3 fiche

### Canadian Institute of Mining and Metallurgy. General meeting (1975 : Toronto, Ont.)

Quality evaluation of Saskatchewan lignite resources : physical and chemical analyses. MICROLOG 90-04677 1 fiche

### Canadian Institute of Mining and Metallurgy. Meeting, Coal Division Session (1959 : Montreal, Que.)

A Study of a simplified theory of gravity concentration in coal jigs. MICROLOG 90-04542 1 fiche

**Canadian Institute of Mining and Metallurgy Conference (1965 : Ottawa, Ont.)**

Standard methods of sampling, testing and analysis of metal-bearing ores and related materials : highlights of the work of A.S.T.M. Committee E-16. MICROLOG 90-04633 1 fiche

**Canadian Institute of Strategic Studies**

Change, challenge and commitment, 1989 : a strategic review. MICROLOG 90-03509 1 fiche

North Pacific/East Asia Project report. MICROLOG 90-03508 1 fiche

Nuclear strategy in the nineties : deterrence, defence, and disarmament. MICROLOG 90-03510 2 fiche

Security and sovereignty. MICROLOG 90-04489 1 fiche

**Canadian Institute of Strategic Studies. Spring Seminar (1989 : Toronto, Ont.)**

Nuclear strategy in the nineties : deterrence, defence, and disarmament. MICROLOG 90-03510 2 fiche

**Canadian Intergovernmental Conference Secretariat**

1990-91 estimates, part III : Canadian Intergovernmental Conference Secretariat. MICROLOG 90-03697 1 fiche

The Canadian food and beverage processing sector : considerations for the development of a National Agriculture and Food Strategy. MICROLOG 90-02622 1 fiche

Committee on the Environment : annual report. MICROLOG 90-00525 1 fiche

The Family : a national priority : a Saskatchewan discussion paper. MICROLOG 90-02016 1 fiche

Forest Productivity Working Group : annual report. MICROLOG 90-00522 1 fiche

Health promotion : a dynamic for change : an address. MICROLOG 90-00125 1 fiche

Integration of work and family responsibilities : report on strategies. MICROLOG 90-02060 2 fiche

Intergovernmental conferences served by the CICS : list by subject matter : vol. IV, 1988-89. MICROLOG 90-02950 1 fiche

Interprovincial barriers to trade in agriculture and food products. MICROLOG 90-02632 1 fiche

Meeting the adjustment challenge : a joint position paper of ministers with responsibilities for labour market matters. MICROLOG 90-00126 1 fiche

Northeast International Committee on Energy : annual report. MICROLOG 90-00524 1 fiche

An Overview of present studies, problems and efforts related to health promotion in Québec. MICROLOG 90-00038 1 fiche

A Progress report on follow-up actions to the report 'Future directions in health care services'. MICROLOG 90-00037 1 fiche

Report to governments 1988-89. MICROLOG 90-02573 1 fiche

The Road ahead for health promotion and disease prevention. MICROLOG 90-00134 1 fiche

Seventeenth annual Conference of the New England Governors and the Eastern Canadian Premiers. MICROLOG 90-04278 1 fiche

Sustainable economic development : report. MICROLOG 90-00521 1 fiche

Towards a labour force strategy : a framework for training for women : an assessment. MICROLOG 90-02061 1 fiche

Towards a labour force strategy : a framework for training for women : progress reports. MICROLOG 90-02073 2 fiche

Training and the labour market : a challenge. MICROLOG 90-02069 1 fiche

Tri-regional Economic Cooperation Committee : annual report. MICROLOG 90-00523 1 fiche

Where the rubber meets the road : from health promotion rhetoric to health promotion action. MICROLOG 90-00131 1 fiche

**Canadian International Development Agency**

1990-91 estimates, part III : Canadian International Development Agency. MICROLOG 90-03647 2 fiche

Annual report 1988-89. MICROLOG 90-05145 3 fiche

Human resource development : results of a 1988 international survey by the International Development Research Centre (IDRC) and the Canadian International Development Agency (CIDA). MICROLOG 90-00194 2 fiche

Report to CIDA : public attitudes toward international development assistance. MICROLOG 90-01747 1 fiche

**Canadian International Development Agency. Public Affairs Branch**

Women in development : a sectoral perspective. MICROLOG 90-00754 2 fiche

**Canadian International Trade Tribunal**

1990-91 estimates, part III : Canadian International Trade Tribunal. MICROLOG 90-03680 1 fiche

Annual report 1989-90. MICROLOG 90-07027 2 fiche

Grain corn, public interest : preliminary examination of changed circumstances. MICROLOG 90-03163 2 fiche

An Inquiry into textile tariffs, vol. 1 : report. MICROLOG 90-04261 3 fiche

An Inquiry into textile tariffs, vol. 2 : detailed recommendations and background papers. MICROLOG 90-04262 4 fiche

Introduction to the Canadian International Trade Tribunal. MICROLOG 90-04582 1 fiche

**Canadian Land Reclamation Association**

Reclamation, a Global Perspective : proceedings of the conference, vol. 1. MICROLOG 90-03281 5 fiche

Reclamation, a Global Perspective : proceedings of the conference, vol. 2. MICROLOG 90-03431 5 fiche

**Canadian Museum of Civilization**

Beyond the Golden Mountain : Chinese cultural traditions in Canada. MICROLOG 90-04929 1 fiche

Toward the 21st century : new directions for Canada's national museums. MICROLOG 90-04487 2 fiche

**Canadian National**

Annual report 1989. MICROLOG 90-04728 1 fiche

**Canadian National Institute for the Blind**

Design guidelines for meeting the access needs of blind and visually impaired travellers in transportation terminals. MICROLOG 90-07185 1 fiche

**Canadian Occidental Petroleum Ltd. Alternate Fuels Division**

Albert Mines oil shale deposit drill core resampling and calcium analysis. MICROLOG 90-06087 1 fiche

**Canadian Occupational Projection System**

The Challenge of technology change in Canadian municipalities : a human resource study. MICROLOG 90-00799 2 fiche

**Canadian Pacific Limited. Research and Development**

Track/train dynamics, vol. 7 : 1987. MICROLOG 90-07210 2 fiche

**Canadian Parks Service**

Archaeological investigations at the Forks National Historic Site, Winnipeg : mitigation of the north point development. MICROLOG 90-04612 1 fiche

Archaeological monitoring at Les Forges du Saint-Maurice, 1988. MICROLOG 90-04607 1 fiche

Banff National Park management plan summary. MICROLOG 90-02309 1 fiche

Canadian Parks Service interim Policy on Cultural Resource Management. MICROLOG 90-06746 1 fiche

Fort Battleford National Historic Park : management plan. MICROLOG 90-03091 1 fiche

Government roofs in Dawson City, Yukon Territory : an assessment of design challenges and building practices. MICROLOG 90-04609 1 fiche

Jasper National Park management plan summary. MICROLOG 90-02308 1 fiche

Jasper National Park planning framework : planning program for Jasper Park Lodge redevelopment. MICROLOG 90-07099 1 fiche

Long range plan : Mount Norquay ski area, Banff National Park. MICROLOG 90-02324 1 fiche

Lower Fort Garry National Historic Park 1989 visitor survey : report on survey findings. MICROLOG 90-06358 3 fiche

Market analysis : Kouchibouguac National Park. MICROLOG 90-00135 6 fiche

Miscellaneous archaeological research projects at historic period Ontario Region sites, 1986. MICROLOG 90-04610 1 fiche

Plants of Riding Mountain National Park, Manitoba. MICROLOG 90-00005 4 fiche

A Report on the 1984 field season of archaeological investigations at the Customs House at the Klondike National Historic Sites, Dawson City, Yukon. MICROLOG 90-04608 1 fiche

Small-scale archaeological surveillance and other emergency work performed in 1988. Canadian Parks Service, Quebec Region. MICROLOG 90-04611 1 fiche

**Canadian Parks Service. Ontario Region**

Sault Ste. Marie Canal : socio-economic impact evaluation. MICROLOG 90-06417 1 fiche

**Canadian Parks Service. Socio-Economic Branch**

An Assessment of induced investments resulting from the purchases of goods and services made by the Canadian Parks Services, fiscal year 1988-89. MICROLOG 90-03139 1 fiche

Prince Edward Island National Park : economic impact of non-resident visitor expenditures. MICROLOG 90-03136 1 fiche

Private sector construction expenditures induced by selected national heritage locations in the Atlantic region. MICROLOG 90-03146 1 fiche

Private-sector construction in Banff, Jasper and Waterton National Parks in Alberta : economic impacts. MICROLOG 90-02391 1 fiche

### Canadian Parks Service. Socio-Economic Branch. Evaluation and Analysis Division

Impact on the provincial economy of the National Parks of Alberta. MICROLOG 90-02431 1 fiche

### Canadian Parks Service. Western Region

Kootenay National Park service plan : appendices. MICROLOG 90-06362 2 fiche

### Canadian Parks Service. Western Region. Natural History Research Division

Initial environmental evaluation for the Mount Norquay ski area, 1988 development plan : final report. MICROLOG 90-02394 2 fiche

### Canadian Parks Service. Western Regional Office

Lake O'Hara visitor survey. MICROLOG 90-03128 1 fiche

### Canadian Permanent Committee on Geographical Names

Gazetteer of Canada : Newfoundland. — 2d ed. MICROLOG 90-00013 3 fiche

Gazetteer of Canada : Northwest Territories. MICROLOG 90-00014 3 fiche

Gazetteer of Canada : Nova Scotia. — 2d ed. MICROLOG 90-00002 6 fiche

Gazetteer of Canada : Prince Edward Island. — 3d ed. MICROLOG 90-04996 1 fiche

### Canadian Petroleum Association

Annual report 1989. MICROLOG 90-05109 1 fiche

Disposal of oilfield wastes by land treatment : effects on the environment and implications for future land use, 1987 research project : a report. MICROLOG 90-04410 2 fiche

Environmental audit guidelines for the petroleum industry. MICROLOG 90-04403 2 fiche

Environmental operating guidelines for the Alberta petroleum industry. MICROLOG 90-04764 7 fiche

A Field guide to muskeg spill response. MICROLOG 90-04398 1 fiche

Foam-X sorbent evaluation. MICROLOG 90-04404 1 fiche

Land use requirements for anticipated hydrocarbon development in the Mackenzie Delta-Beaufort Sea land use planning region. MICROLOG 90-04402 2 fiche

Oil spill debris separation tank, for recovered spilled fluids. MICROLOG 90-04405 1 fiche

Oil spill preparedness in the upstream petroleum industry. MICROLOG 90-03394 2 fiche

Recommended practices for drilling geopressured wells on the Nova Scotian shelf. MICROLOG 90-04409 2 fiche

The Recovery of spilled heavy oil with skimmers. MICROLOG 90-04399 1 fiche

A Report on enhancements for existing and future helicopters supporting operations of the Canadian oil and gas industry. MICROLOG 90-04408 2 fiche

Report on the CPA/Alberta Environment/ERCB Waste Management Workshop. MICROLOG 90-07338 1 fiche

### Canadian Petroleum Association. Environmental Planning and Management Committee. Waste Management Subcommittee

Petroleum industry waste management study, phase III : priority waste characterization. MICROLOG 90-04401 1 fiche

### Canadian Petroleum Association. Environmental Research Advisory Council

CPA/ERAC rotary kiln incineration study : a study of rotary kiln incineration of oily sand wastes. MICROLOG 90-04400 1 fiche

### Canadian Petroleum Association. Pipeline Division

Oil pipeline performance review, 1986. MICROLOG 90-03302 1 fiche

Oil pipeline performance review, 1988. MICROLOG 90-04903 1 fiche

### Canadian Police College

Community emergency planning : a handbook for police. MICROLOG 90-04490 2 fiche

Future Issues in Policing : symposium proceedings. MICROLOG 90-04468 3 fiche

Police recruitment of ethnic minorities. MICROLOG 90-05573 1 fiche

Policing : the evolution of a mandate. MICROLOG 90-01234 1 fiche

Policing native communities. MICROLOG 90-01231 2 fiche

Research Leaders in Policing Symposium : proceedings. MICROLOG 90-00220 2 fiche

The Victoria community police stations : an exercise in innovation. MICROLOG 90-01229 1 fiche

### Canadian Population Society. Meeting (1989 : Quebec, Que.)

Dynamics of internal migration in Bangladesh. MICROLOG 90-06453 1 fiche

### Canadian Pulp and Paper Association

Forest management expenditures in Canada, 1983-85. MICROLOG 90-06771 1 fiche

### Canadian Radiation Protection Association. Meeting (1988 : Montebello, Que.)

The Uniform application of ALARA to all radiation workers. MICROLOG 90-04396 1 fiche

### Canadian Radio-Television and Telecommunications Commission

1990-91 estimates, part III : Canadian Radio-Television and Telecommunications Commission. MICROLOG 90-03687 2 fiche

Annual report 1988-89. MICROLOG 90-00741 2 fiche

### Canadian Renewable Fuels Association

Let's Clear the Air : papers. MICROLOG 90-01413 1 fiche

### Canadian Resourcecon (1983) Ltd.

Wood-waste fuelled indirectly-fired gas turbine cogeneration plant for sawmill applications, phase II : site-specific preliminary engineering and financial analysis. MICROLOG 90-01356 1 fiche

### Canadian Secretariat

1990-91 estimates, part III : Canadian Secretariat. MICROLOG 90-03663 1 fiche

### Canadian Society for Civil Engineering Conference (1988 : Calgary, Alta.)

Construction of the Pangnirtung Water Reservoir. MICROLOG 90-02635 1 fiche

### Canadian Society of Agricultural Engineering

Experiences with environmental control in hot nurseries. MICROLOG 90-06979 1 fiche

Growth room temperature control with water-source heat pumps. MICROLOG 90-03940 1 fiche

### Canadian Space Agency

1990-91 estimates, part III : Canadian Space Agency. MICROLOG 90-03662 1 fiche

### Canadian Studies Directorate

Canada and the Pacific Basin. MICROLOG 90-00859 1 fiche

Canadian economics. MICROLOG 90-01560 1 fiche

Canadian geography. MICROLOG 90-01561 1 fiche

Canadian government and politics. MICROLOG 90-01563 1 fiche

Canadian history. MICROLOG 90-01562 1 fiche

Canadian literature in English. MICROLOG 90-01564 2 fiche

The Canadian north and its conceptual referents. MICROLOG 90-00247 2 fiche

The Face of the national capital. MICROLOG 90-00857 1 fiche

Innovation in Canada. MICROLOG 90-00860 1 fiche

Multiculturalism in Canada. MICROLOG 90-01559 1 fiche

Open learning and distance education in Canada. MICROLOG 90-06860 2 fiche

Work and unions in Canada. MICROLOG 90-00858 1 fiche

### Canadian Symposium on Remote Sensing, IGARSS '89 (12th : 1989 : Vancouver, B.C.)

Microwave satellite forecasting of snowmelt runoff. MICROLOG 90-06489 1 fiche

Role of ice properties in wave-ice interaction during LIMEX, 1987. MICROLOG 90-00376 1 fiche

### Canadian Task Force on Mental Health Issues Affecting Immigrants and Refugees

After the door has been opened : mental health issues affecting immigrants and refugees in Canada. MICROLOG 90-01557 2 fiche

Review of the literature on migrant mental health. MICROLOG 90-01558 1 fiche

### Canadian Transport Commission

Canadian Transport Commission reports, 1986. MICROLOG 90-06046 11 fiche

### Canadian Transportation Accident Investigation and Safety Board

1990-91 estimates, part III : Canadian Transportation Accident Investigation and Safety Board. MICROLOG 90-04291 1 fiche

Aviation occurrence report : Air Tuteurs ltée, Cessna 402B C-GLUC, Chario, New Brunswick, 22 February 1988. MICROLOG 90-06739 1 fiche

- Aviation occurrence report : Perimeter Airlines Ltd., Beech A65 Queen Air C-GKDX, Winnipeg, Manitoba, 31 July 1987. MICROLOG 90-06628 1 fiche
- Aviation occurrence reports, issue 9. MICROLOG 90-07042 3 fiche
- Aviation safety recommendations : CTAI SB A90-57, 90-58, 90-59 and 90-60. MICROLOG 90-06182 1 fiche
- Canadian Tree Improvement Association. Meeting (22d : 1989 : Edmonton, Alta.)**
- Canadian Tree Improvement Association : proceedings. MICROLOG 90-05926 4 fiche
- Canadian Union of Public Employees**
- Collective agreement between Board of Management and Canadian Union of Public Employees : group, rehabilitation and therapy, and recreation and culture program officer. MICROLOG 90-04104 1 fiche
- Canadian Water Resources Association**
- Symposium on Ground-Water Contamination : abstracts. MICROLOG 90-05383 1 fiche
- Canadian Waterfront Resource Centre**
- A Selected bibliography on Toronto's port and waterfront. MICROLOG 90-03577 1 fiche
- Soil contamination and port redevelopment in Toronto. MICROLOG 90-05867 1 fiche
- Canadian Wheat Board**
- Annual report 1988-89. MICROLOG 90-05416 1 fiche
- Report to producers on the 1988-89 crop year. MICROLOG 90-07096 1 fiche
- Canadian Wildlife Service**
- Annual report for Canada, 1988. MICROLOG 90-06321 1 fiche
- Annual review 1987-88. MICROLOG 90-00548 2 fiche
- The Benefits of wildlife. MICROLOG 90-03235 1 fiche
- The Breeding bird survey in Canada 1966-83 : analysis of trends in breeding bird populations. MICROLOG 90-02388 1 fiche
- The Cooperative breeding bird survey in Canada, 1988. MICROLOG 90-04583 1 fiche
- Distribution of American Black Duck and Mallard in northern Ontario. MICROLOG 90-04889 1 fiche
- Fifty-third Federal-Provincial/Territorial Wildlife Conference : transactions. MICROLOG 90-03922 2 fiche
- Flyways and reserve networks for water birds. MICROLOG 90-06295 2 fiche
- The Importance of wildlife to Canadians in 1987 : highlights of a national survey. MICROLOG 90-01703 1 fiche
- Migratory game birds harvested in Canada during the 1988 hunting season. MICROLOG 90-05535 1 fiche
- Pearly caribou status report. MICROLOG 90-06267 1 fiche
- Polar Bear Pass National Wildlife Area : management plan. MICROLOG 90-06693 1 fiche
- Preliminary results of a cooperative bird-banding project in the Zapata Swamp, Cuba, January, 1988. MICROLOG 90-04888 1 fiche
- Preliminary results of the lesser snow goose collaring program on the Alaksen National Wildlife Area, 1986 and 1987. MICROLOG 90-01705 1 fiche
- The Red-throated Loon as an indicator of environmental quality in the Beaufort Sea region : an interim report. MICROLOG 90-06368 2 fiche
- The Relative effectiveness of fixed-wing aircraft and helicopters for surveying Trumpeter Swans. MICROLOG 90-01096 1 fiche
- Status and distribution of the loggerhead shrike in western Canada. MICROLOG 90-01704 1 fiche
- Trends in sizes of breeding duck populations in western Canada, 1955-89. MICROLOG 90-03255 1 fiche
- Waterfowl management plan : Newfoundland and Labrador. MICROLOG 90-06366 1 fiche
